The Kirwan Years 1998 :

The Kirwan Years, 1998-2002 Christopher L. Perry, 2006 Starting under President Edward Jennings and continuing under Gordon Gee The Ohio State University began a long term drive to match the school's ranking in football with a commensurate reputation for academic excellence Initiatives to admit better prepared students attract and retain world class faculty and build highly rated programs were promising but the university needed a broad strategy to coordinate these and other initiatives into a focused approach Enter President William Brit Kirwan who understood this need perfectly and whose major legacy became widely known as the Academic Plan This document became and remains the centerpiece of Ohio State's agenda with budget and other priorities emanating from its six strategies and 14 initiatives Continuing the Ohio State tradition of chronicling the university's history through the work of its past presidents The Kirwan Years recounts the Academic Plan's creation acceptance and initial implementation along with many major university accomplishments from mid 1998 through mid 2002 It also details the university's ongoing uphill struggle to maximize state financial support and its success in private and other fundraising It provides a compelling look at the complexity permeating today's research universities And yes it describes the firing of football coach John Cooper and the hiring of Jim Tressel
