shows their theories at work in readings of familiar literary texts Critical Practice argues that theory matters because it makes a difference to what we do when we read opening up new possibilities for literary and cultural analysis Poststructuralism in conjunction with psychoanalysis and deconstruction makes radical change to the way we read both a priority and a possibility With a new chapter updated guidance on further reading and revisions throughout this second edition of Critical Practice is the ideal guide to the present and future of literary studies *Journal of Religion and Health*
