The Last Sunset in the West Natalie Sanders, 2024-07-04 Fully revised edition with updated information on the surviving members of the orca pod In 2014 marine biologist Dr Natalie Sanders joined the crew of the research vessel Silurian to seek out Britain s West Coast Community of orca and study them before we lose them forever Though this orca pod has delighted scientists and whale watchers for years we still know relatively little about them and what we do know comes mostly from citizen science and chance encounters But what is abundantly clear is that pollution entanglement military sonar and climate change continue to have an enormous impact on whales and dolphins and other marine life throughout the world s oceans This book is a must read for anyone interested in the marine world in this age of climate change A captivating yet poignant account it takes the reader from the Western Isles of Scotland to Vancouver Island and elsewhere It also delves deep into the history of our relations with these beautiful and sentient creatures to explain what their loss means and how we can avoid similar tragedies in the future
