Women and Marriage in German Medieval Romance D. H. Green, 2009-04-02 D H Green shows how German romances found ways to debate and challenge the conventional antifeminism of the medieval period **Marriage, as it Was, as it Is, and as it Should be** Annie Besant, 1882 *The Muslim Women (Protection of Rights on Marriage) Bill 2019* Salim Khan Anmol, 2022-08-15 The Muslim Women Protection of Rights on Marriage Bill 2019 New English Latest Edition Marriage is said to be the union of two people and is seen as the purest and oldest institution in India The object of marriage for every religion is different For example marriage in Hindus is considered to be a dharma but every religion places an obligation to get married for some or other reason Where marriages among Hindus are considered a sacred institution marriage among Muslims is seen as a contract Unlike Hindu Law Mohamedan Law or Muslim Law is not codified This leads to chaos and confusion regarding the various ceremonies and authenticity of various things related to marriage like consent age divorce maintenance etc In order to deal with different problems that arose due to the non codification of Muslim law the parliament passed various acts The article explains all these acts and their important provisions It also describes the nature and essential conditions of a Muslim marriage Nature of Muslim marriage Marriage in Muslim law is known as Nikah It is an Arabic word which means union of two people Baillie s Digest defines Muslim marriage as a contract done to legalise sexual relationships and the procreation of children while on the other hand in Hedaya a guide or commentary on Islamic Law nikah means carnal conjunction in its primitive sense As said by the Prophet of Islam marriage is his sunna practices of the Prophet Muhammad and his followers must obey his practices and follow them properly When we talk about the nature of Muslim marriage a question that always arises is whether it is a sacrament or a contract Some jurists opined that marriage in Muslims is a civil contract while others argue that it has a sacrament attached to itself Thus while studying the nature of Muslim marriage three different aspects are taken into consideration These are Legal aspect Social aspect Religious aspect Legal aspect of Muslim marriage The legal aspect says that among Muslims marriage is a civil contract because it has similar characteristics to a contract These are Like a contract there is a proposal i e Ijab by one party and acceptance i e Qubul by the other party In a contract free consent plays an important role Similarly there can be no marriage without the consent of the parties and such consent must not be obtained through fraud coercion force or undue influence If a minor is married by their guardians then the minor has a right to repudiate the marriage on attaining the age of majority which is the same as the age of puberty in Muslims This option of puberty is also known as khyar ul bulugh Similarly a contract entered into by a guardian on behalf of a minor can be set aside or controlled by him on attaining a majority The parties to a marriage are allowed to enter into any kind of ante nuptial or post nuptial agreement if it is enforceable by law The only condition is that it must be reasonable and not contrary to their religion The terms of marriage in the nikahnama can be altered according to the wishes of the bride and groom but it must be within the limits of the law In the case of Abdul Kadir v Salima 1886 it was

held that Muslim marriage is a contract and not a sacrament Changing the terms of women's engagement in cocoa and coffee supply chains Food and Agriculture Organization of the United Nations,2019-05-01 In this report FAO Twin KIT and other case holders take a close look at gender inequalities in the cocoa and coffee sectors and their underlying causes The included case studies are structured around four themes including women s participation and leadership in producer organisations women s access to land the household approach and innovations in extension services The report also explores how to address inequalities systematically and how to bring the solutions to scale *Understanding the organizational approaches of funders and project implementers to strengthen women's empowerment through agricultural collectives* Rubin, Deborah,2024-10-07 This paper reports on approaches for strengthening women s empowerment that were implemented by project partners involved in the International Food Policy Research IFPRI led Applying New Evidence for Women s Empowerment ANEW project funded by the Walmart Foundation The study explores the partner organizations websites and publications project materials and selected staff interviews to better understand how each envisions women s empowerment and the pathways for supporting it The four implementing project partners are Grameen Foundation Professional Assistance for Development Action PRADAN in India Root Capital in Mexico and TechnoServe in Guatemala Their programs and their organizational approaches vary in whether they primarily focus on women rather than more broadly targeting both women and men and their gender relationships Some organizations are more organic in integrating attention to gender and empowerment into their programs designing and implementing an approach on a case by case basis Others are more intentional in establishing organization wide policies strategies and monitoring systems The organizations also differ in their positions on supporting economic empowerment and clear economic benefits such as prioritizing increased income or assets in contrast to those that also seek to actively change social norms and achieve other social dimensions of empowerment that encompass behaviors around decision making mobility and self confidence Another variation is in the organizations attention to enterprise development and consequently to entrepreneurship and upgrading and what aspects of women s empowerment are most critical for achieving those goals This paper offers implementers and their funders insight into organizational differences in approaches to women s empowerment The review demonstrates that both funders and implementers continue to focus on strengthening women s economic empowerment by increasing women s incomes and assets often with good results However they often lack clear theories of change or explicit strategies to strengthen other dimensions of women s empowerment More nuanced evidence based theories of change and targeted actions could strengthen program design to expand and support women s achievement of empowerment across all its dimensions The Amazing Marriage George Meredith,1895 This novel examines the theory that a wife is free to leave a husband who does not recognize her as an equal Child Marriage in Türkiye Esra Bayhantopçu,2024-04-18 This book provides a critical examination of the problem of underage marriage in T rkiye through a sociological perspective considering gender

perceptions cultural norms and historical and political contexts The author conducts a comprehensive analysis of the problem by focusing on the lived experiences and narratives of women who married before the age of 18 Face to face in depth and semi structured interviews were conducted with 22 women who married at a child age to identify the causes and consequences of the marriage of underage girls and to explore how these women perceive both their own identities and the broader issue of child marriage Employing critical discourse analysis the author scrutinizes these interviews through the theoretical lenses of gender identity and ideology all while remaining attuned to feminist perspectives These combined methodologies allow the author to reveal the hidden dimensions of the problem examining the feelings stories behaviours and beliefs of real women who have married as children Finally constructive solutions are proposed for the elimination of the child marriage problem not only in T rkiye but in countries across the world The book will interest those working and studying in an array of fields including sociology gender studies and Turkish culture and society as well as anyone with a general interest in the problem of underage marriage
