

The Land Question

- Land shortages were a huge problem in 1917.
- Peasants had believed that the February Revolution would bring them land – it hadn't! Discontent grew and peasants began to seize land.
- The Provisional Government and the Soviet did not have a solution to the land question – but Lenin spotted the political advantage in the situation and adopted a land policy (stolen from the SRs) promising 'Land to the peasants'. This brought renewed support for the Bolsheviks.

Publisher description **The Land Question in India** Anthony P. D'Costa, Achin Chakraborty, 2017-03-31 This volume takes a fresh look at the land question in India Instead of re engaging in the rich transition debate in which the transformation of agriculture is seen as a necessary historical step to usher in dynamic capitalist or socialist development this collection critically examines the centrality of land in contemporary development discourse in India Consequently the focus is on the role of the state in pushing a process of dispossession of peasants through direct expropriation for developmental purposes such as acquisition of land by local states for infrastructure development and to support accumulation strategies of private business through industrialization Land in India is sought for non agricultural purposes such as purchasing land to reduce risk and real estate development Land is also central to tribal communities adivasis whose livelihoods depend on it and on a moral economy that is independent of any price driven markets Adivasis tend to hold on to such property not as individual owners for profit but for collective security and to protect a way of life Thus land notwithstanding its role in the accumulation process has been and continues to be a turbulent arena in which classes castes and communities are in conflict with each other with the state and with capital jockeying to determine the terms and conditions of land transactions or their prevention through both market and non market mechanisms The volume goes beyond the traditional political economy of the agrarian transition question and deals with inter alia distributional conflicts arising from acquisition of land by the state for capital accumulation on the one hand and its commodification on the other It provides new analytical insights into the land acquisition processes their legal institutional and ethical implications and the multifaceted regional diversity of acquisition experiences in India *The Land Question, Ireland* ,1880 **The Land Question in Neoliberal India** Varsha Bhagat-Ganguly, 2020-05-31 This book examines the land question in neoliberal India based on a cohesive framework focusing on socio legal and judicial interactions in a point of departure from the political economy approach to land issues It sheds light on several complex aspects of land matters in India and evolves a critical and multi dimensional discourse by mapping out exchanges between social and political actors the State elites citizenry and the legal battle or judicial interpretations on land as right to property Based on the themes of socio legal policy and perspective on land on the one hand and jurisprudence on the land question on the other the volume discusses topics such as conclusive land titling urban land governance governance of forest land land leasing practices policies and interventions from the perspective of women land acquisition policies and laws how land matters interface with environmental issues and judicial debates on compensation against land acquisitions It covers a wide range of case studies from all over India by bringing together specialists from across backgrounds Comprehensive and topical this book will be useful to scholars and researchers of development studies political studies law sociology political economy and public policy as well as to professionals in NGOs

The Land Question Sir John Macdonell, 1873 The Land Question; Containing Remarks on the Right of Property in Land, on Land Tenures, Large and Small Farms ... By G. R. [i.e. George Drysdale.] G. R., 1863 **The Theory of the Land Question** George Raymond Geiger, 1936 *African Land Questions, Agrarian Transitions and the State* Sam Moyo, 2008-05-15 This empirically grounded study provides a critical reflection on the land question in Africa research on which tends to be tangential conceptually loose and generally inadequate It argues that the most pressing research concern must be to understand the precise nature of the African land question its land reforms and their effects on development To unravel the roots of land conflicts in Africa requires thorough understanding of the complex social and political contradictions which have ensued from colonial and post colonial land policies as well as from Africa s development and capital accumulation trajectories especially with regard to the land rights of the continent s poor The study thus questions the capacity of emerging neo liberal economic and political regimes in Africa to deliver land reforms which address growing inequality and poverty It equally questions the understanding of the nature of popular demands for land reforms by African states and their ability to address these demands under the current global political and economic structures dictated by neo liberalism and its narrow regime of ownership The study invites scholars and policy makers to creatively draw on the specific historical trajectories and contemporary expression of the land and agrarian questions in Africa to enrich both theory and practice on land in Africa

By a Practical Man, 1856 *The Land Question* Henry George, Jr., 2015-07-09 Excerpt from *The Land Question* Property in Land the Condition of Labor We propose to abolish all taxes save one single tax levied on the value of land irrespective of the value of the improvements in or on it What we propose is not a tax on real estate for real estate includes improvements Nor is it a tax on land for we would not tax all land but only land having a value irrespective of its improvements and would tax that in proportion to that value Our plan involves the imposition of no new tax since we already tax land values in taxing real estate To carry it out we have only to abolish all taxes save the tax on real estate and to abolish all of that which now falls on buildings and improvements leaving only that part of it which now falls on the value of the bare
