*A Guide to British Military History* Ian F. W. Beckett, 2016-06-30 What exactly is military history Forty years ago it meant battles campaigns great commanders drums and trumpets It was largely the preserve of military professionals and was used to support national history and nationalism Now though the study of war has been transformed by the war and society approach by the examination of identity memory and gender and a less Euro centric and more global perspective Generally it is recognised that war and conflict must be integrated into the wider narrative of historical development and this is why Ian Becketts research guide is such a useful tool for anyone working in this growing field It introduces students to all the key debates issues and resources While European and global perspectives are not neglected there is an emphasis on the British experience of war since 1500 This survey of British military history will be essential reading and reference for anyone who has a professional or amateur interest in the subject and it will be a valuable introduction for newcomers to it *The Battle of Greece, 1940-1941* Alexandros Papagos, 1949 **Decisions and Diplomacy** Dick Richardson, Professor Glyn A Stone, Glyn Stone, 2005-07-25 The growing significance of international history and relations in recent years has been reflected in a growth of research and development of new courses This collection of essays focus on three broad themes the League of Nations and collective security problems in British foreign policy and European International security in the interwar years The book in memory of Esmonde Robertson and George Gr n distinguished historians of the London School of Economics contains papers commissioned from some of the most formidable names in international history **A Life of Admiral of the Fleet Andrew Cunningham** Michael Simpson, 2020-09-23 This book presents an account of the life of naval commander Andrew Cunningham the best known and most celebrated British admiral of the Second World War It supplements Cunningham s papers by Cabinet and Admiralty records papers of his service contemporaries and of Churchill *World War II in Europe, Africa, and the Americas, with General Sources* Loyd Lee, 1997-08-21 A broadly interdisciplinary work this handbook discusses the best and most enduring literature related to the major topics and themes of World War II Military historiography is treated in essays on the major theaters of military operations and the related themes of logistics and intelligence while political and diplomatic history is covered in chapters on international relations resistance movements and collaboration The volume analyzes themes of domestic history in essays on economic mobilization the home fronts and women in the military and civilian life The book also covers the Holocaust This handbook approaches each topic from a global viewpoint rather than focusing on individual national communities Except for nonprint material the literature research and sources surveyed are primarily those available in English The volume is aimed at both experts on the war and the general academic community and will also be useful to students and serious laymen interested in the war **Victory at Sea** Paul M. **Disasters and Heroes** Angus Calder, 2004 Images of war and its commemoration are an everyday presence in contemporary culture from the embedded reporter in the field to the Last Post at the Menin Gate Disasters and Heroes On War Memory and

Representation revisits campaigns from the plains of Troy to recent events in the Balkans examining how wars are represented and remembered Angus Calder shows how the facts of war are transformed into myths that condition later responses to war and how the construction of memory begins with wartime events themselves Beginning with a section devoted to war memorials and the public remembrance of war such as D Day commemorations the essays collected in *Disasters and Heroes* then look at the lived experience of war for ordinary people while the final section deals with literary representation of war from *The Iliad* to T E Lawrence and on to Christa Wolf's *Cassandra* *Disasters and Heroes* is a thought provoking collection dealing with issues of major significance which recent events have made painfully topical

*England's Last War Against France* Colin Smith, 2009 Most people think that England's last war with France involved point blank broadsides from sailing ships and breastplated Napoleonic cavalry charging red coated British infantry But there was a much more recent conflict than this It went on for over two years and cost several thousand lives Under the terms of its armistice with Nazi Germany the unoccupied part of France and its substantial colonies were ruled from the spa town of Vichy by the government of Marshal Philip Petain the victor of Verdun one of the bloodiest battles of the First World War Between July 1940 and November 1942 while Britain was at war with Germany Italy and ultimately Japan it also fought land sea and air battles with the considerable forces at the disposal of Petain's Vichy French When the Royal Navy sank the French Fleet at Mers El Kebir almost 1 300 French sailors died in what was the 20th century's most one sided sea battle British casualties were nil In the House of Commons MPs greeted Churchill's brutal resolve not to risk the warships of their very recent ally falling into German hands with cheers and threw their order papers in the air It is a wound that has still not healed for undoubtedly these events are better remembered in France than in Britain Despite the appalling losses on both sides the war the British and eventually the Americans fought against France in 1940-42 has never been written about as an entity An embarrassment at the time its maritime massacre and the bitter hard fought campaigns that followed rarely make more than footnotes in accounts of Allied operations against Axis forces Until now
