**Posthumanism in the Novels of Kurt Vonnegut** Andrew Hicks, 2020-05-18 Posthumanism in the Novels of Kurt Vonnegut Matter That Complains So re examines the prevailing critical consensus that Kurt Vonnegut was a humanist writer While more difficult elements of his work have often been the subject of scholarly attention the tendency amongst critics writing on Vonnegut is to disavow them or to subsume them within a liberal humanist framework When Vonnegut's work is read from a posthumanist perspective however the productive paradoxes of his work are more fully realised Drawing on New Materialist Eco Critical and Systems Theory methodologies this book highlights posthumanist themes in six of Vonnegut's most famous novels and emphasises the ways in which Vonnegut troubles human non human natural artificial and material discursive hierarchical binaries

**On the Borders of Convention** Aleksandra Nikčević Batričević, 2010-05-11 The research presented in this book is authored by scholars coming from as distant regions as South Africa the United States of America Great Britain France Italy Belarus the Balkans Needless to say that one of the good things about this international cooperation is that owing to their different socio cultural backgrounds these scholars have contributed to producing an extremely varied picture of ways of approaching the challenge of a changing world The papers on literature and culture collected in this book contribute a further element of rigour into the discussion of numerous and always varying and changing borders of convention in a literary text literary genre and literary theory as well as in general culture and everyday paths of life Starting with oral cultures over the classic literary masters modernist and postmodernist textual and theoretical phenomena the twentieth century flouting of numerous social and gender convention through painting film dance contemporary music as well as graffiti We have sought to stress that what is most noticeable from the evidence of their studies is that scholars today concern these issues through a dynamic global process and beyond any preconceived design or any strict set of theoretical prescriptions which would otherwise lead

them to ignore the ever shifting borders in literature and culture as well as in global socio cultural reality in general The variety and complexity of these essays offer fresh views to the problem posed in the title of the book Therefore we trust that they will stimulate intellectual confrontation and circulation of ideas within the field of literature and cultural studies
