Skorzeny Project:

The Skorzeny Project Clive Egleton, 1998 A Nazi agent is sent by U boat to bomb New York on New Year s Eve 1945

Otto Skorzeny Stuart Smith, 2018-09-20 This first book to reassess the myth and the realities of Otto Skorzeny Hitler s favourite commando SS Obersturmbannführer Otto Skorzeny became a legend in his own time Hitler s favourite commando acquired a reputation as a man of daring renowned for his audacious 1943 mission to extricate Mussolini from a mountain top prison Skorzeny s influence on special operations doctrine was far reaching and long lasting in 2011 when US Navy SEALs infiltrated Pakistan to eliminate Osama Bin Laden the operational planning was influenced by Skorzeny s legacy Yet he was also an egoist who stole other men s credit including for the seminal rescue of Mussolini brave and resourceful but also an unrepentant Nazi and a self aggrandizing hogger of the limelight Stuart Smith draws on years of in depth research to uncover the truth about Skorzeny s career and complex personality From his background as a student radical in Vienna to his bloody service with the Waffen SS on the Eastern Front his surprise rebirth as a commando and his intriguing post war career and mysterious fortune this book tells Otto Skorzeny s story in full warts and all for the first time The Skorzeny

Papers Ralph P. Ganis, 2018-06-26 In *The Skorzeny Papers* the author reveals the details of the post World War II activities of former SS Commando Otto Skorzeny Considered by British and American Allied forces as the most dangerous man in Europe Skorzeny planned and led numerous daring missions throughout the war The story in this book was extracted by Major Ganis from Skorzeny s personal papers The evidence reveals that Skorzeny gradually and methodically became involved in US intelligence and covert operations during the Cold War But Skorzeny s network had a greater point of destiny in November 1963 when it was utilized to carry out the most tragic mission in history This story would have been lost had Skorzeny not kept meticulous records of his businesses and contacts which were fronts for US covert activity In the end *The Skorzeny Papers* reveal the intriguing web of secret organizations and people linked to the events culminating in the assassination of President John F Kennedy

Forbidden Bookshelf Presents Christopher Simpson Christopher Simpson, 2018-10-23 Three provocative exposés from a National Jewish Book Award winning journalist address the CIA s recruitment of Nazis and use of psychological warfare *The Splendid Blond Beast* This groundbreaking investigation into the CIA s post World War II liberation and recruitment of Nazi war criminals including the pivotal role played by CIA director Allen Dulles traces the roots not only of US government malfeasance but of mass murder as an instrument of financial gain and state power from the Armenian genocide during World War I to Hitler s Holocaust through the practice of genocide today Revelatory and shocking Kirkus Reviews *Blowback* The true story of how US intelligence organizations employed Nazi war criminals in clandestine warfare and propaganda against the USSR anticolonial revolutionaries and progressive movements worldwide that were claimed to be Soviet pawns The story is one that needs to be told and *Blowback* makes a major contribution to its telling supplementing a thorough collation of known cases with ample new research *The New York Times* *Science of Coercion*

Drawing on long classified documents from the Pentagon the CIA and other national security agencies Simpson exposes secret government funded research into psychological warfare and reveals that many of the most respected pioneers in the field of communication science were knowingly complicit as their findings were employed for the purposes of propaganda subversion intimidation and counterinsurgency during the Cold War era An intriguing picture of the relations between state power and the intellectual community Noam Chomsky Massachusetts Institute of Technology The SS Hunter Battalions Professor Perry Biddiscombe, 2006-11-15 Conventional wisdom suggests that the Allies and the Soviets were the only side in the Second World War to support resistance movements This book shows that Hitler had his own version of the SOE and the OSS and that the Nazis too encouraged underground resistance against their enemies especially as Europe was liberated in 1944 5 **Skorzeny** Charles Whiting, 1998 Skorzeny was one of the most daring figures of the 20th Century His exploits included the rescue of Mussolini from his mountain prison a brief affair with Eva Peron a blackmail attempt on Winston Churchill and the kidnapping of the son of the wartime dictator of Hungary Eisenhower declared him The most wanted man in Europe Charles Whiting *The SS Hunter Battalions* Alexander Perry Biddiscombe, 2006 Conventional wisdom suggests that the Allies and the Soviets were the only side in the Second World War to support resistance movements in occupied countries However based on recently released archival sources *The SS Hunter Battalions* shows that Hitler had his own version of the SOE and the OSS and that the Nazis too encouraged underground resistance against their enemies especially as Europe was liberated in 1944 45 The Nazis tried to exploit the misguided activism of ex collaborators ethnic nationalists and rabid anti communists but their efforts were clumsy and they were hamstrung by the sordid reputation that they had gained as wartime occupiers In addition the German commandos and spy masters in charge of the project hindered their own efforts through infighting ill discipline and a misconceived appreciation of their ability to motivate violent dissent Nonetheless the Germans supported as many as 700 000 anti Soviet partisans during the last year of the war and even in liberated France and Italy they bolstered small anti Allied cells and bands As Perry Biddiscombe demonstrates such efforts were not mere transitory occurrences but touched upon the origin of the Cold War and the roots of postwar Euro fascism
