Mangalagiri, 2023-01-24 Winner 2025 Anna Balakian Prize International Comparative Literature Association In an interconnected world literature moves through transnational networks crosses borders and bridges diverse cultures In these ways literature can bring people closer together Today as hopes for globalization wane and exclusionary nationalism is on the march can literature still offer new ways of relating with others Comparative literature has long been under the spell of circulation contact connectivity and mobility what if it instead sought out their antitheses States of Disconnect examines the breakdown of transnationalism through readings of literary texts that express aversion to pairing ideas of China and India Focusing on practices of comparison Adhira Mangalagiri considers how these texts articulate the undesirability or impossibility of relating with national others tracing portrayals of violence silence and distance She proposes the concept of disconnect a crisis of transnationalism perceptible in moments when a connection is severed interrupted or disavowed

Despite their apparent insularity texts of disconnect offer possibilities for relating ethically across national borders while resisting both narrow nationalisms and globalized habits of thought Reading a variety of largely untranslated twentieth century Chinese and Hindi short stories novels and poems Mangalagiri develops three new strategies for comparison friction ellipses and contingency that together comprise a critical vocabulary of disconnect Foregrounding transnationalism s discontents States of Disconnect offers a different path by which literary texts can cultivate a critical sensibility for making sense of a world rife with division
