### **African American Historic Burial Grounds and Gravesites of New England** Glenn A. Knoblock,2015-12-24

Evidence of the early history of African Americans in New England is found in the many old cemeteries and burial grounds in the region often in hidden or largely forgotten locations This unique work covers the burial sites of African Americans both enslaved and free in each of the New England states and uncovers how they came to their final resting places The lives of well known early African Americans are discussed including Venture Smith and Elizabeth Freeman as well as the lives of many ordinary individuals military veterans business men and women common laborers and children The author s examination of burial sites and grave markers reveals clues that help document the lives of black New Englanders from the 1640s to the early 1900s

### **The Archaeology of Slavery in Early Medieval Northern Europe** Felix Biermann,Marek

Jankowiak,2021-11-18 This volume is the first comprehensive study of the material imprint of slavery in early medieval Europe While written sources attest to the ubiquity of slavery and slave trade in early medieval British Isles Scandinavia and Slavic lands it is still difficult to find material traces of this reality other than the hundreds of thousands of Islamic coins paid in exchange for the northern European slaves This volume offers the first structured reflection on how to bridge this gap It reviews the types of material evidence that can be associated with the institution of slavery and the slave trade in early medieval northern Europe from individual objects such as e g shackles to more comprehensive landscape approaches The book is divided into four sections The first presents the analytical tools developed in Africa and prehistoric Europe to identify and describe social phenomena associated with slavery and the slave trade The following three section review the three main cultural zones of early medieval northern Europe the British Isles Scandinavia and Slavic central Europe The contributions offer methodological reflections on the concept of the archaeology of slavery They emphasize that the material record by its nature admits multiple interpretations More broadly this book comes at a time when the history of slavery is being integrated into academic syllabi in most western countries The collection of studies contributes to a more nuanced perspective on this important and controversial topic This volume appeals to multiple audiences interested in comparative and global studies of slavery and will constitute the point of reference for future debates

### **Grief and Genre in American**

**Literature, 1790-1870** Desirée Henderson,2016-04-15 Focusing on the role of genre in the formation of dominant conceptions of death and dying Desirée Henderson examines literary texts and social spaces devoted to death and mourning in eighteenth and nineteenth century America Henderson shows how William Hill Brown Susanna Rowson and Hannah Webster borrowed from and challenged funeral sermon conventions in their novelistic portrayals of the deaths of fallen women contrasts the eulogies for George Washington with William Apess s Eulogy for King Philip to expose conflicts between national ideology and indigenous history examines Frederick Douglass s use of the slave cemetery to represent the costs of

slavery for African American families suggests that the ideas about democracy materialized in Civil War cemeteries and monuments influenced Walt Whitman's war elegies and offers new contexts for analyzing Elizabeth Stuart Phelps's *The Gates Ajar* and Emily Dickinson's poetry as works that explore the consequences of female writers claiming authority over the mourning process. Informed by extensive archival research, Henderson's study eloquently speaks to the ways in which authors adopted, revised, or rejected the conventions of memorial literature choices that disclose their location within decisive debates about appropriate gender roles and sexual practices, national identity and citizenship, the consequences of slavery, the nature of democratic representation and structures of authorship and literary authority. *Forgotten Bones* Lois Miner Huey, 2015-08-01

An ordinary construction project uncovers an extraordinary archaeological discovery. Imagine you're watching a backhoe dig up the ground for a construction project when a round object rolls down a pile of dirt and stops at your feet. You pick it up, brush off some dirt, and realize you're holding a skull. This is exactly what happened in Albany, New York, in 2005. Workers were putting in new sewer line when a backhoe driver dug up a skull. After police declared the skull wasn't connected to any recent crimes, a team of archaeologists took a closer look. They determined the skull was from a Black person who had died at least one hundred years earlier. Suddenly, the construction site turned into an archaeological dig. Scientists excavated more bones and realized that they had located a long lost cemetery for enslaved people from the 1700s. Slavery had been legal in the northern United States, including in New York State, in colonial times, but the stories of these enslaved people are largely unknown. This site became just the third slave cemetery ever to be excavated in the North. See how archaeologists pieced together the truth about these once-forgotten bones. A fascinating glimpse into how archaeologists piece together the past. Booklist Children's Book Committee at Bank Street College Best Children's Book of the Year.

*The Crisis*, 1985-01. The Crisis, founded by W. E. B. Du Bois as the official publication of the NAACP, is a journal of civil rights history, politics, and culture, and seeks to educate and challenge its readers about issues that continue to plague African Americans and other communities of color. For nearly 100 years, The Crisis has been the magazine of opinion and thought leaders, decision makers, peacemakers, and justice seekers. It has chronicled, informed, educated, entertained, and, in many instances, set the economic, political, and social agenda for our nation and its multi-ethnic citizens.

**Slave Culture** Sterling Stuckey, 1987. In this major study, Sterling Stuckey, a leading Afro-American scholar, explains how different African peoples interacted during the 19th century to achieve a common culture. By examining evidence from anthropology and art history about Central and West African cultural traditions and exploring the folklore of the American slave, Stuckey has arrived at an important cross-cultural analysis of the Pan-African impulse among slaves that contributed to the formation of the black ethos.

**Cemeteries of Ambivalent Desire** Marie Theresa Hernández, 2008. Growing up as the daughter of a funeral director in Fort Bend County, Texas, Marie Theresa Hernández was a frequent visitor to the San Isidro Cemetery, a burial place for Latino

workers at the Imperial Sugar Company based in nearby Sugar Land During these years she acquired from her father and mother a sense of what it was like to live as an ethnic minority in Jim Crow Texas Therefore returning to the cemetery as an ethnographer offered Hernández a welcome opportunity to begin piecing together a narrative of the lives and struggles of the Mexican American community that formed her heritage However Hernández soon realized that San Isidro contained hidden depths The cemetery was built on the former grounds of an old slave owning plantation Her story quickly burgeoned from one of immigrant laborers working the land of the giant sugar company to one of the slave laborers who had worked the sugar plantations decades before but whose history had been largely wiped out of the narrative of the affluent white majority county Much like an archeologist Hernández began carefully brushing away layers of time to reveal the fragile entombed remnants of a complex unknown past A professional photographer as well as a scholar Hernández provides visual images to spur the reader's imagination and anchor the narrative in historical reality She mines interviews newspaper accounts and other primary sources interpreted through her own rich sense of place and time to reconstruct the identity of a community where the Old South the wealthy New South and the culture from south of the border all come together to form an almost iconic symbol for today's America In this complex and nuanced self reflexive ethnography Hernández interweaves personal memory and group history ethnic experience and class even death and life

**Twelve Hundred Miles in a Waggon** Alice Blanche Balfour,1895

Early Slavery at the Cape of Good Hope, 1652-1717 Karel Schoeman,2007 The first slave reached the Cape in 1653 a year after the first white settler party under Jan van Riebeeck Thousands more would follow Slavery was to remain an institution here until the end of the Dutch period in 1795 and well beyond for it was not until 1834 under British administration that Cape slaves were finally emancipated In Early Slavery at the Cape of Good Hope Karel Schoeman describes the transplanting of slavery from the Dutch colonies in the East and the first sixty years of its development under local conditions basing his account mainly on contemporary sources and providing as much information on individual slaves and their lives as these allow Attention is likewise given to the gradual manumission of slaves and the slow development of a free black community at the Cape towards the close of the seventeenth century

**Sticks & Stones** Margaret Ruth Little,1998 An old graveyard writes Ruth Little is a cultural encyclopedia an invaluable source of insight and information about the families traditions and cultural connections that shape a community But although graveyards and gravemarkers have long been recognized as vital elements of the material culture of New England they have not received the same

attention in the South Sticks and Stones is the first book to consider the full spectrum of gravemarkers both plain and fancy in a southeastern state From gravehouses to cedar boards to seashell mounds to tomb tables to pierced soapstones to homemade concrete headstones an incredibly rich collection of gravemaker types populates North Carolina's graveyards Exploring the cultural economic and material differences that gave rise to such variation Little traces three major parallel

developments a tradition of headstones crafted of native materials by country artisans a series of marble monuments created by metropolitan stonecutters and a largely twentieth century legacy of wood and concrete markers made within the African American community With more than 230 illustrations including 120 stunning photographs by Tim Buchman Sticks and Stones offers an illuminating look at an important facet of North Carolina s cultural heritage

**Biography of an Antislavery City** Todd Mealy,2007 After five years of research Todd Mealy has provided a monographic perception of the Antislavery Movement By focusing on the struggles between antislavery and proslavery residents of Harrisburg during the first half of the 19th century Mealy shows that Pennsylvaniaas capital city was just as important in the movement against slavery as some of the larger more documented cities like Philadelphia New York and Boston Invaluable for its sources and sweeping account of a single city this interpretation of antislavery provides a unique look at the partnership between white and black abolitionists and how we survey the Underground Railroad all together
