**Awakes** H G Wells,2020-03-21 A troubled insomniac in 1890s England falls suddenly into a sleep like trance from which he does not awake for over two hundred years During his centuries of slumber however investments are made that make him the richest and most powerful man on Earth But when he comes out of his trance he is horrified to discover that the money accumulated in his name is being used to maintain a hierarchal society in which most are poor and more than a third of all people are enslaved Oppressed and uneducated the masses cling desperately to one dream that the sleeper will awake and lead them all to freedom      *Sleep* Marie de Manacéine,1897      **Japan and the City of London** Paul Newall,2013-12-17

From an insider s position Sir Paul Newall tells the story of Japan s links with the City of London and explains why the City was first chosen by Japan as the focal point for its overseas financial investment This account draws upon the author s close contact with Japanese governmental and financial authorities both in the UK and Japan itself It documents the evolution and development of this relationship from the earliest beginnings of Japanese financial contact in the 1860s Important to economic and financial historians this account should also be of particular value to those dealing with Japanese companies and financial institutions as well as to those Japanese who are working or have worked in the City First published in 1996 this title is part of the Bloomsbury Academic Collections series      Monthly Book Circular ,1899      **Animal Magnetism Or**

*Phenomena* William Gregory,1884      **Sleep, Its Physiology, Pathology, Hygiene, and Psychology** ,1897      **Victorian Visions of Suburban Utopia** Nathaniel Robert Walker,2020-11-17 The rise of suburbs and disinvestment from cities have been defining features of life in many countries over the course of the twentieth century In *Victorian Visions of Suburban Utopia* Nathaniel Walker asks why did we abandon our dense complex urban places and seek to find the best of the city and the country in the flowery suburbs While looking back at the architecture and urban design of the 1800s offers some answers Walker argues that a great missing piece of the story can be found in Victorian utopian literature The replacement of cities with high tech suburbs was repeatedly imagined and breathlessly described in the socialist dreams and science fiction fantasies of dozens of British and American authors Some of these visionaries such as Robert Owen Edward Bulwer Lytton Edward Bellamy William Morris Ebenezer Howard and H G Wells are enduringly famous while others were street vendors or amateur chemists who have been all but forgotten Together they fashioned strange and beautiful imaginary worlds built of

synthetic gemstones lacy metal colonnades and unbreakable glass staffed by robotic servants and teeming with flying carriages As varied as their futuristic visions could be Walker reveals how most of them were unified by a single desperate plea for humanity to have a future worth living we must abandon our smoky poor chaotic Babylonian cities for a life in shimmering gardens
