**Art Song** Carol Kimball, 2013-05-01 Book *Art Song Linking Poetry and Music* is a follow up to author Carol Kimball's bestselling *Song A Guide to Art Song Style and Literature*. Rather than a general survey of art song literature, the new book clearly and insightfully defines the fundamental characteristics of art song and the integral relationship between lyric poetry and its musical settings. Topics covered include poetry basics for singers, exercises for singers in working with poetry, insights into composers' musical settings of poetry, building recital programs, performance suggestions, and recommended literature for college and university classical voice majors. The three appendices address further aspects of poetry guidelines for creating a recital program and representative classical voice recitals of various descriptions. *Art Song Linking Poetry and Music* is extremely useful as an unofficial text for college/university vocal literature classes, as an excellent resource for singers and voice teachers, and of interest to all those who are fascinated by the rich legacy of the art song genre. **The Art Song** James Husst Hall, 1953 **The Art Song** Glenn H. Pinnell, 1968 **The Art Song in East Asia and Australia, 1900 to 1950** Alison McQueen Tokita, Joys H. Y. Cheung, 2023-03-31 This book explores art song as an emblem of musical modernity in early twentieth-century East Asia and Australia. It appraises the lyrical power of art song: a solo song set to a poem in the local language in Western art music style accompanied by piano as a vehicle for creating a localized musical identity while embracing cosmopolitan visions. The study of art song reveals both the tension and the intimacy between cosmopolitanism and local politics and culture. In 20 essays, the book includes overviews of art song development written by scholars from each of the five locales of Japan, Korea, China, Taiwan, and Australia, reflecting perspectives of both established narratives and uncharted historiography. *The Art Song in East Asia and Australia 1900 to 1950* proposes listening to the songs of our neighbours across cultural and linguistic boundaries. Recognizing the colonial constraints experienced by art song composers, it hears trans-colonial expressions addressing musical modernity both in earlier times and now. Readers of this volume will include musicologists, ethnomusicologists, singers, musicians, and researchers concerned with modernity in the fields of poetry and history working within local, regional, and transnational contexts. *The Art Song* James H. Hall, 1995-12 *An Introduction to the Art Song* Barbara Meister, 2000 This newly revised edition of a popular classic guides the reader on a quick but thorough tour of the art song and its major practitioners from the Florentine musicians of the 17th century to contemporary composers like Ned Rorem and John Musto. **Exploring Art Song Lyrics** Jonathan Retzlaff, 2012-05-11 Drawing generously from four centuries of Italian, German, and French art song, *Exploring Art Song Lyrics* embraces the finest of the literature and presents the repertoire with unprecedented clarity and detail. Each of the over 750 selections comprises the original poem, a concise English translation, and an IPA transcription which is uniquely designed to match the musical setting. Enunciation and transcription charts are included for each language on a single, easy-to-read page. A thorough discussion of the method of transcription is provided in the appendix. With its wide-ranging scope of repertoire,

and invaluable tools for interpretation and performance Exploring Art Song Lyrics is an essential resource for the professional singer voice teacher and student      **The Art Song** ,1989      **Listening to Art Song** Margaret Olson,2015

Listening to Art Song An Introduction offers an easy to read fresh perspective on the remarkably diverse musical genre of art song As the ultimate expression of the human singing voice song has provided succor and entertainment to humanity in many forms since the dawn of civilization Margaret Olson examines art song s development outlines the elements that comprise it offers ideas on how to effectively listen to it provides brief biographical sketches of key art song composers and lists important recordings in the Italian French German British and American art song traditions By instructing readers in how to evaluate art songs Olson informs and enhances the art song experience for listeners Listening to Art Song is the ideal text for any student studying voice or anyone interested in the genre of song      *The Establishment of the Art Song* Paul Halladay,1934      *Fundamentals of Musical Art: The art song* Edward Dickinson,1926      **A Comprehensive Study of Romanian Art Song** Paula Boire,2002      *Song* Carol Kimball,2006-12 This is a dictionary of classical art songs part II pp 39 543 arranged by nationality and composer      *The History of Music* Emil Naumann,1898      **Song** Carol Kimball (Mezzo-soprano),1996      *The Story of Music* William James Henderson,1889      *Art Song in Nineteenth-century Russia* Anne Marie Weaver,2015 The art song thrived in nineteenth century Russia but it did so almost entirely unencumbered by the rhetoric and musical characteristics of musical nationalism that dominate our historical narratives of Russian music Rather the art song or romans a singular noun derived from the French romance reflects the basic cosmopolitanism of its cultural context The genre comprises thousands of songs for voice and piano published for domestic use in upper class homes and salons with substantial contributions from all of imperial Russia s best known composers Few of these songs show elements of musical nationalism such as the use of folk tunes or identifiably Russian subject matter Rather composers predominatntly employed a sophisticated musical style developed from the art song traditions of western Europe and the resulting songs often refer to lands outside of Russia through poetic texts and musical features This cosmopolitanism offers one of the most compelling reasons for the genre s current state of neglect the most recent full length monograph on the romans Vasina Grossman 1956 dates from more than a half century ago and lacks any kind of index The existing English language scholarship either deals with a small number of songs by a specific composer or summarizes a large quantity of songs with very little depth Moreover none of the extant scholarship even mentions the many songs by Russian composers written in languages other than Russian most often French German or Polish My dissertation begins to fill this problematic gap not with a chronological history of the art song in nineteenth century Russia but with a geographically oriented exploration of the many connections between Russian composers and Western European music and literature The art song a genre of miniatures from the high public profiles hat render operas and symphonies problematic illustrates the extent to which Russia was not just an exotic ghetto in Richard Taruskin s phrase but functioned as a full participant in the European musical

tradition     A Guide to the Latin American Art Song Repertoire Maya Hoover, 2010-04-29 A reference guide to the vast array of art song literature and composers from Latin America this book introduces the music of Latin America from a singer's perspective and provides a basis for research into the songs of this richly musical area of the world The book is divided by country into 22 chapters with each chapter containing an introductory essay on the music of the region a catalog of art songs for that country and a list of publishers Some chapters include information on additional sources Singers and teachers may use descriptive annotations language poet or pedagogical annotations range tessitura to determine which pieces are appropriate for their voices or programming needs or those of their students The guide will be a valuable resource for vocalists and researchers however familiar they may be with this glorious repertoire     **Against the Grain** Anthony Marcus Lien, 2002 Although the art song was a favorite genre for American composers at the turn of the twentieth century its favor declined rapidly and significantly during and after the 1910s and for the rest of the first half of the century the genre held a marginalized place in the output of the most significant American composers Concomitant with this decline in song composition song publication also declined considerably after 1920 and a significant percentage of the songs published thereafter were authored by composers who specialized in songs and shorter works expressly intended for the domestic song market and written in a conservative musical idiom which appealed to mass audiences In contrast to these earlier declines the number of song concerts in New York City and Chicago increased steadily until about 1930 even as the percentage of song concerts to other concerts held steady After 1930 however the number and percentage of song concerts in these two cities declined as well The emergence of modernism on the musical landscape in the United States after 1915 was largely responsible for the decline in song publication and composition Among other things musical modernism valorized dissonance melodic fragmentation and objectivity these characteristics ran counter to the largely Romantic orientation of the art song with its long spun lyricism and subjectivity As a revision of current thought this study broadens the accepted corpus of modernist composers to include neo Romantics such as Samuel Barber whose music retained an essentially Romantic character but was frequently imbued with modernistic elements This study also shows that composers in certain stylistic professional and demographic categories wrote songs in significantly greater numbers than those in others For example in looking at the total song output of over 100 American and transplanted composers there was a direct correlation between musical style and song production the more progressive a composer's musical style the fewer songs he authored In addition to the impact of modernism on the art song these declines were also exacerbated by the art song's close association with other song types which lowered the art song's aesthetic credentials     Music and Musicians , 1926
