## **The Astrology Of Genius:**

**Agamben and the Signature of Astrology** Paul Colilli, 2015-10-16 The work of Giorgio Agamben one of the world's most important living philosophers has been the object of much scrutiny Yet there is one dimension of his thought that remains unexamined by scholars the presence of the ancient science of astrology in his writings This book the first of its kind identifies the astrological elements and explains the implications of their usage by Agamben In so doing this study challenges us to imagine Agamben's thought in a radically new light A critical account of the presence of astrology and related themes in Agamben's writings ranging from the earlier works to the more recent publications illustrates that the astrological signature constitutes a mode of philosophical archaeology that allows for an enhanced understanding of concepts that are central to his works such as potentiality the signature bare life and biopolitics **The Astrology of Genius** Roy Tate, 1987
