This Time Benjamin T. Jones,2018-01-24 To propose an Australian should be our head of state doesn t seem revolutionary Isn t that already the case some may even ask Flip a coin and you ll have your answer In This Time Benjamin T Jones charts a path to an independent future He reveals the fascinating early history of the Australian republican movement of the 1850s and its larger than life characters He shows why we need a new model for a transformed multicultural nation and discusses the best way to choose an Australian head of state With republicans leading every government around the nation the time is ripe for change

Fiducial Governance John Power,2010-07-01 FIDUCIAL GOVERNANCE AN AUSTRALIAN REPUBLIC FOR THE NEW MILLENNIUM represents an attempt to grapple with the challenges of designing governance regimes suited to the new millennium Power s monograph asserts the need for the reform of Australian governance and charts Australia s fitful progress towards a republican future Along the way he sketches a framework for constitutional reform mindful of the strengths and weaknesses of the current system of government and the contest of ideas about the role and configuration of Australian Heads of State Long a frustrated Australian republican Power contends that the republican log jam is due in significant part to a lack of respect shown by the republican policy community to the contribution long made to good governance by monarchical heads of state This monograph seeks to draw lessons from this experience so as to make the republican venture one of substance for the Australian public In so doing Power draws on a range of republican indigenous and feminist writings in order to develop a new framework of fiducial governance aimed at enhancing the trustworthiness and integrity of our institutions of governance thereby paving the way for the replacement of the monarch by a directly elected head of state This is an erudite and thoughtful book that will be of interest to those with an interest in systems of governance and to constitutional scholars whether they be republicans or monarchists

Constitutional Conventions Nicholas Barry,Narelle Miragliotta,Zim Nwokora,Haig Patapan,2025-02-18 This book analyses constitutional conventions as a powerful but largely neglected framework for studying the law and politics of constitutions Constitutional conventions are the unwritten rules that inform and circumscribe the political behaviour of

individuals organisations and a political system They are as important as the formal legal rules that define written constitutions and shape modern states yet unlike formal written rules conventions have received only limited scholarly attention This book considers conventions as a lens to theorise and to analyse the institutional dynamics of contemporary constitutions Interrogating constitutional conventions in a wide variety of contexts including in Westminster parliamentary systems in presidential systems and in non democratic regimes the book offers new perspectives for understanding diverse aspects of constitutional politics such as the capacity of conventions to constrain populists how conventions influence constitutional transformation how they reflect and reshape core democratic values such as citizenship and constitutional identity and what they reveal about the character of authoritarian regimes The book thus demonstrates how the dynamics of conventions shape the very character of constitutions The book will be of interest to legal theorists constitutional lawyers and political scientists

Australian Republicanism Mark McKenna, Wayne Hudson, 2013-05-09 We Love the Queen We honour the Queen We serve the Queen R G Menzies We must be ourselves Patrick White This collection of readings is designed to transform the way Australians understand republicanism The editors Mark McKenna and Wayne Hudson have harvested a wealth of previously neglected historical sources to produce a fascinating collection of original documents that grapple with the issue of Australian republicanism In the vein of Manning Clark's **Select Documents in Australian History** this collection offers an inspiring and salient sample of Australian viewpoints from the famous to the obscure the official to the flagrantly informal the rhetorical to the ridiculous McKenna and Hudson argue with wit and conviction that the republic has a place in Australia's future but only if it is a republic founded on a vision of inclusion This is the first principle of creating a sense of ownership and belonging a republic about which people might begin to care

The Australian Republic Cheryl Saunders, Canadian Study of Parliament Group, 2000

John Jost, 1993-09-01 **Agenda**, 1995 **The Australian Journal**, 1872 **An Australian Republic** Greg Barns, Anna

Krawec-Wheaton, 2006 An Australian republic is so near yet so far The prime minister John Howard is so vehemently opposed to any change in the status quo that there seems little likelihood of the republic being placed on the political agenda in the near future As the 1999 referendum showed the confrontational nature of our democracy is tailor made for political opportunism and negative campaigns and will always be a potential obstacle to the republican cause The desire for a more appropriate constitutional form for contemporary Australia has been placed in the too hard basket by many of its supporters Greg Barns and Anna Krawec Wheaton are more hopeful They argue that the community is broadly republican in sentiment and that forces within both major political parties are sympathetic They believe that the situation could change rapidly with a Costello prime ministership presenting a real opportunity to build consensus across party boundaries and between the major players An Australian Republic examines how the opportunity can be grasped how the conditions necessary for achieving

consensus can be created and how the political will to tackle the complex issues of constitutional change can be generated
