Bland,Andrew Coyne,2014-09-25 This special 2 book bundle contains two cutting edge pieces of political analysis *Irresponsible Government* examines the current state of Canadian democracy in contrast to the founding principles of responsible government established by the Fathers of Confederation The book examines the failure of modern elected representatives to perform their constitutionally mandated duty to hold the prime minister and his cabinet to account It further examines the modern lack of separation between the executive and legislative branches of government and the disregard with which the executive views Parliament The book seeks to shine light on the current power imbalances that have developed in Canadian government There are few greater tragedies than a war waged by a society against itself As *Time Bomb* shows a catastrophic confrontation between Canada's so called settler and First Nations communities is not only feasible it is in theory inevitable Grievances prejudice and other factors all combine to make the likelihood of a First Nations uprising very real This book describes how a nationwide insurgency could unfold how the usual police and military reactions to First Nations protests would only worsen such a situation and how on the other hand innovative policies might defuse the smouldering time bomb in our midst The question all Canadians and First Nations must answer is this Must we all suffer the disaster of a great national insurgency or will we act together to extinguish the growing danger in our midst Includes

Johnson,2010-06-03 The constitutional background of both legislatures and their procedures are described and where possible compared Currently unsolved problems often have much in common in vexed areas such as ethics requirements or how procedural rules permit minorities fair access to legislative time before majorities prevail British successes include the enhanced authority and effectiveness of select committees and the acquisition of more debating time by the creation of a parallel Chamber Unsolved problems at Westminster begin with the powers and status of the Lords and go on through the search for more effective

review of EU activities adapting parliamentary scrutiny to more sophisticated government financial information and making better use of legislative time without diminishing back bench rights The accelerated pace and extent of procedural changes in Congress is problematic Constant pursuit of campaign funds increased party exploitation of Members ethical shortcomings and partisan reapportionments have diminished collegiality and compromise Business is conducted with greater predictability with fewer quorum calls postponement and clustering of votes and by utilization of ad hoc special orders often in derogation of openness and minority rights in the House Minority complaints have been frequent and occasionally extreme Conversely constant filibuster threats in the Senate have enhanced minority party power there An inverse ratio between the greater complexity importance and urgency of pending legislation on the one hand and diminution of deliberative capacity fairness and transparency on the other has been repeatedly demonstrated especially at the stage of final compromises
