

## OF MODERN POETRY

The poem of the mind in the act of finding  
What will suffice. It has not always had  
To find: the scene was set; it repeated what  
Was in the script.

Then the theatre was changed  
To something else. Its past was a souvenir.

It has to be living, to learn the speech of the place.  
It has to face the men of the time and to meet  
The women of the time. It has to think about war  
And it has to find what will suffice. It has  
To construct a new stage. It has to be on that stage  
And, like an insatiable actor, slowly and  
With meditation, speak words that in the ear,  
In the delicatest ear of the mind, repeat,  
Exactly, that which it wants to hear, at the sound  
Of which, an invisible audience listens,  
Not to the play, but to itself, expressed  
In an emotion as of two people, as of two  
Emotions becoming one. The actor is  
A metaphysician in the dark, twanging  
An instrument, twanging a wiry string that gives  
Sounds passing through sudden rightnesses, wholly  
Containing the mind, below which it cannot descend,  
Beyond which it has no will to rise.

It must  
Be the finding of a satisfaction, and may  
Be of a man skating, a woman dancing, a woman  
Combing. The poem of the act of the mind.

The Image of Modern Man in T. S. Eliot's Poetry Mariwan Nasradeen Hasan Barzinji, 2012 A Synopsis of The Image of Modern Man in T S Eliot's Poetry The book presents an original understanding of The Image of Modern Man in T S Eliot's complex and difficult poems in an easy and understandable way Eliot's vision of the Modern Man and the modern world is depicted throughout Eliot's most well known poems Eliot was criticized by some critics for the quality of his work The aim of this book is to show what an excellent and successful writer he is to reveal the value and the contemporaneity of his work His poetry is highly evaluated for its unique way of depicting the Modern human by realizing their problems as well as finding solutions for them The book is a great help not only for students but also for researchers as the writer has spent much time in reading Eliot's Poems He has also written an ample introduction about modernism

modernity modern literature and modern poetry which might be enough to understand the rise of modern poetry All of Eliot's poems especially The Waste Land has presented readers with all the aspects of the modern life Life is depicted as a mirror broken and shattered into pieces as it is clear in the different parts of the poem Eliot unlike many poets did not leave the modern man lost in despair but he finds them their peace of mind by having a true and stable faith as well as their turning to God The only solution for the entire problems of modern man is to turn to God and neglect the world that completely occupied them spiritually Modern man lost has lost his values especially women by only looking after children many of them turned to prostitution because they did not have any source of income therefore they used that as a way to earn money to maintain life These are the characteristics of the modern city which are shared by all the countries especially Europe Eliot insists on the necessity of turning from world to God He believed that God can solve their problems because man or any other earthly power could not change that gloomy and aimless life which modern man complained against

**The Image of Manhood in Early Modern Literature** Andrew P. Williams, 1999-04-30 The numerous and multifaceted ways in which masculinities emerge and are expressed within cultures prompt a broad ranging examination and reconsideration of what it means to be a man Within the study of masculinity the early modern period stands between the Renaissance when conceptions of manhood were primarily dominated by chivalric and humanistic traditions and the latter half of the 18th century which marked the beginnings of modern conceptions of masculine identity But rather than a

transitional period the early modern era was a key moment in the evolutionary dynamics of masculine representation. Political forces such as the Puritan revolution the Restoration and the shift in power from the courtier class to the growing middle class forced a reconsideration of the masculine ideal in light of the experiences of the masses. At the same time the emergence of print culture provided a means of transmitting the new masculine ideal and literature of the period reflected the changing notions of masculinity. The chapters in this volume explore the various strategies used by early modern writers to represent masculinity. Together the expert contributors offer a broad perspective on the social and political dynamics of early modern masculine identity. Included are chapters on such writers as Thomas Carew Andrew Marvell Francis Beaumont and John Fletcher John Dryden Daniel Defoe and Samuel Richardson. Though incorporating a variety of critical approaches the contributors all explore the inherent anxiety associated with masculinity and its representation. The chapters demonstrate how significant literary texts of the period provided not only idealized images of early modern manhood but also contesting ones. By focusing on the literary historical and social dynamics which construct cultural perceptions of masculinity this volume ultimately illustrates the literary representation of manhood in the early modern period to be a dynamic and evolving process which often challenged Western notions of what it means to be a man.
