The Bad Sleep Well:

Kurosawa Mitsuhiro Yoshimoto, 2000 This work will become not only the newly definitive study of Kurosawa but will redefine the field of Japanese cinema studies particularly as the field exists in the west

The Warrior's Camera Stephen Prince, 1999-11-14 The Japanese film director Akira Kurosawa who died at the age of 88 has been internationally acclaimed as a giant of world cinema *Rashomon* which won both the Venice Film Festival's grand prize and an Academy Award for best foreign language film helped ignite Western interest in the Japanese cinema *Seven Samurai* and *Yojimbo* remain enormously popular both in Japan and abroad In this newly revised and expanded edition of his study of Kurosawa's films Stephen Prince provides two new chapters that examine Kurosawa's remaining films placing him in the context of cinema history Prince also discusses how Kurosawa furnished a template for some well known Hollywood directors including Martin Scorsese Steven Spielberg and George Lucas Providing a new and comprehensive look at this master filmmaker *The Warrior's Camera* probes the complex visual structure of Kurosawa's work The book shows how Kurosawa attempted to symbolize on film a course of national development for post war Japan and it traces the ways that he tied his social visions to a dynamic system of visual and narrative forms The author analyzes Kurosawa's entire career and places the films in context by drawing on the director's autobiography a fascinating work that presents Kurosawa as a Kurosawa character and the story of his life as the kind of spiritual odyssey witnessed so often in his films After examining the development of Kurosawa's visual style in his early work *The Warrior's Camera* explains how he used this style in subsequent films to forge a politically committed model of filmmaking It then demonstrates how the collapse of Kurosawa's efforts to participate as a filmmaker in the tasks of social reconstruction led to the very different cinematic style evident in his most recent films works of pessimism that view the world as resistant to change

Shakespeare Films Peter E.S. Babiak, 2016-05-12 This study reexamines the recognized canon of films based on Shakespeare's plays and argues that it should be broadened by breaking with two unnecessary standards the characterization of the director as auteur of a play's screen adaptation and the convention of excluding films with contemporary language or modern or alternative settings or which use the play as a subtext The emphasis is shifted from the director's contribution to the film's social cultural and historical contexts The work of the auteurs is reevaluated within present day contexts preserving the established canon while proposing new criteria for inclusion
