Krawczyk-Żywko,2024-03-22 In versus narratives Sherlock Holmes is fighting or otherwise engaging Jack the Ripper These texts pit the archetypal detective against the archetypal serial killer using established formulas as well as new narrative and generic features a combination that results in their mass appeal among authors and audiences alike The list of primary sources includes 120 titles novels short stories plays fanfiction Grand Game studies movies TV shows video and board games which are treated as a dialogic network of transfictional and transmedial texts This study unpacks the versus corpus in its media dispersal by analysing Sherlock Holmes and Jack the Ripper as serial figures and culture texts emphasising the increasing palimpsestousness of the former and the multidirectional polymorphousness of the latter and tracing the overlapping Doylean culture text It also addresses the way character constellations are represented negotiated and fed back into the versus network contextualising them within the coalescence of fact and fiction Gothic and crime fiction frames cultural memory neo Victorianism and biofiction      *The Alternative Sherlock Holmes* Peter Ridgway Watt,Joseph

Green,2017-03-02 Between 1887 and 1927 Sir Arthur Conan Doyle wrote sixty Sherlock Holmes stories and his great Canon has become the most praised most studied and best known chapter in the history of detective fiction Over twenty thousand publications pertaining to the Sherlock Holmes phenomenon are known to have been published most of them historical and critical studies In addition however almost since the first stories appeared such was their uniqueness and extraordinary attraction that other authors began writing stories based on or derived from them A new genre had appeared pastiches parodies burlesques and stories that attempted to copy or rival the great detective himself As the field widened there was hardly a year in the twentieth century in which new short stories or novels did not appear Many hundreds are now known to have been published some of them written by authors well known for their work in other literary fields The non canonical Sherlock Holmes literature not only constitutes a literary field of considerable historical interest but includes many stories that are both enjoyable and fascinating in their own right Although a large bibliography on these stories exists and a few limited anthologies have been published no attempt has previously been made to collect them all and discuss them

comprehensively The Alternative Sherlock Holmes does so it provides a new and valuable approach to the Sherlock Holmes literature as well as making available many works that have for years remained forgotten Presented as an entertaining narrative of interest to both the aficionado and the scholar it provides full bibliographic data on virtually all the known stories in the field     *Twentieth-century Short Story Explication* ,1980 Lists books monographs and periodicals which critically analyze or interpret short works of fiction written since 1800     **Sherlock Holmes** Jacob C. Solovay,1969     *Sherlock Holmes* Jacob Solovay,1969     **Index to Canadian Holmes** Donald A. Redmond,2003     *From Baltimore to Baker Street* William Hyder,1995     The Armchair Detective ,1988
