Cultures Cliff Goddard,Zhengdao Ye,2016-07-26 In the fast growing fields of happiness studies and pain research which

have attracted scholars from diverse disciplines including psychology philosophy medicine and economics this volume

provides a much needed cross linguistic perspective It centres on the question of how much ways of talking and thinking

about happiness and pain vary across cultures and seeks to answer this question by empirically examining the core

vocabulary pertaining to happiness and pain in many languages and in different religious and cultural traditions The authors

not only probe the precise meanings of the expressions in question but also provide extensive cultural contextualization

showing how these meanings are truly cultural Methodologically while in full agreement with the view of many social

scientists and economists that self reports are the bedrock of happiness research the volume presents a body of evidence

highlighting the problem of translation and showing how local concepts of happiness and pain can be understood without an

Anglo bias The languages examined include Mandarin Chinese Danish English French German Japanese Koromu a Papua

offers an original account of the good life in late modernity through a uniquely sociological lens It considers the various ways

that social and cultural factors can encourage or impede genuine efforts to live a good life by deconstructing the concepts of

happiness and contentment within cultural narratives of the good life While empirical studies have dominated the discourse

on happiness in recent decades the emphasis on finding causal and correlational relationships has led to a field of research

that arguably lacks a reliable theoretical foundation Deconstructing Happiness offers a step toward developing that

foundation by offering characteristically sociological perspectives on the contemporary fascination with happiness and well

being In doing so it seeks to understand the good life as a socially mediated experience rather than a purely personal or

individually defined way of living The outcome is a book on happiness contentment and the good life that considers the influence of democracy capitalism and progress while also focusing on the more theoretical challenges of self knowledge reason and interaction **A Commentary on the Holy Scriptures: Critical, Doctrinal, and Homiletical** Johann Peter Lange,1872
