to be beyond the striking distance from the earth, pass quietly without making noise or giving light; unless it meets with other clouds that have less.

Tall trees and lofty buildings, as the towers and spires of churches, become sometimes conductors between the clouds and the earth; but not being good ones, that is, not conducting the fluid freely, they are often damaged.

Buildings that have their roofs covered with lead, or other metal, and spouts of metal continued from them into the ground to carry off the water, are never hurt by lightning bolts, whenever it falls on such a building, it passes in the metal and not in the walls.

Whenever lightning happens to be within the striking distance from such clouds, the fluid passes in the walls when they are of wood, brick, or stone, quitting the walls only when it can find better conductors near them, as metal rods, nails, and hinges, windows or doors, glazing on wainscot, or frames of pictures, the silvering on the backs of looking-glasses, the silvered globes, and the bodies of animals, as containing fluids. And in passing through the house it follows the direction of these conductors, leaving a mark in its way as it passes; it in its passage, whether in a straight or crooked line, leaping from one to the other, if not in contact with each other, only rending the wall in the places where these partial good conductors are too distant from each other.

And if a rod is placed on the outside of a building, it will continue down into the moist earth, in any direction, straight or crooked, following the form of the wall or other parts of the building, will receive the lightning at its upper end, attracting it so as to prevent its striking any other part; and, affording it a ready conveyance into the earth, will prevent its damaging any part of the building.

A small quantity of metal is found able to conduct a

*The Art of Marvell's Poetry* J. B. Leishman, 2021-10-29 First Published in 1966 The Art of Marvell's Poetry presents J B Leishman's appreciation of Andrew Marvell's poems by demonstrating a sensitive understanding of attitudes peculiar to the seventeenth century and to Marvell Leishman calls Marvell an inveterate imitator and experimenter His success depended on originality of combination rather than originality of invention But while such phrases as Musick the Mosaique of the Air Desarts of vast Eternity and a green Thought in a green shade were certainly inspired by others they are distinctively and unquestionably Marvell's own Marvell's poetry is shown to be the work of a man living at a certain moment in history it is poetry which could not have been written at any other time and its affinities to the work of contemporary poets are clearly demonstrated The Art of Marvell's Poetry is a must read for scholars and researchers of English poetry English literature and European literature

*The Art of Marvell's Poetry* James Blair Leishman, 1966 When J B Leishman died in August 1963 this book the result of several years work was almost finished Four chapters were in their final draft and the task of editing the remaining two fell to his friend and Literary Executor Professor John Butt who has written the Preface Leishman calls Marvell an inveterate imitator and experimenter His success depended on originality of invention He could not have written his poetry if his immediate predecessors had not already written theirs But his success was no less triumphant Such ringing phrases as Musick the Mosaique of the Air Desarts of vast Eternity and a green Thought in a green shade were certainly inspired by others but they are distinctively and unquestionably Marvell's own And if Marvell depended on the turbulence of his time the Horatian Ode is a cool acceptance of political violence Appleton House a hankering to escape from it To all such questions and to his appreciation of each poem J B Leishman brings both an acute study of the text and a sensitive understanding of attitudes peculiar to the seventeenth century and to Marvell John Butt

**Marvell and Liberty** Martin Dzelzainis, 1999-07-09 Marvell and Liberty is a collection of original essays by leading scholars which treats this major poet in an entirely new light Uniquely it gives equal attention to the full range of Marvell's writings Marvell is a writer deeply implicated in the history of his time and as the essays in this volume show also exercised a potent political influence after his death Marvell and Liberty constitutes a major reassessment of a figure who lived much of his life close to the epicentre of the revolutionary upheavals of the seventeenth century **Marvell's Pastoral Art** Donald M. Friedman, 1970 This work of interpretive criticism is devoted to Marvell's lyric poetry and the political poems written before the Restoration It seeks to understand Marvell's lyrics and to discriminate between what is unique in them and what is bred out of native and classical traditions by studying them as versions of pastoral Professor Friedman considers pastoral

as one of the major ways of literary thinking that the European mind has found and he contends that Marvell's revisions and extensions of pastoral convention can be illuminated by developments in seventeenth century philosophies of mind As Bacon and Descartes are concerned with the relationship between the conscious knowing mind and the external world that it knows so the fundamental problem of pastoral poetry is the complex bond between man and the natural world For Marvell Professor Friedman argues pastoral is not so much a subject as a way of examining the ideas and experiences that interest him In other words when Marvell wants to embody poetically the beauties of innocence of contemplative clarity of orderliness of the created world when he wishes above all to pay homage to the deep rooted creativity of traditions an institutions which link man and the outside world in fruitful harmony whenever in short Marvell confronts one of the many themes in his poetry that require the just weighing of different but desirable forms of action or thought his mind turns to the paradigm of such evaluative experience the pastoral mode Donald M Friedman Andrew Marvell's Liminal Lyrics Joan Faust,2012-09-20

Andrew Marvell's Liminal Lyrics The Space Between is an interdisciplinary study of the major lyric poems of seventeenth century British metaphysical poet Andrew Marvell The poet and his work have generally proven enigmatic to scholars because both refuse to fit into normal categories and expectations This study invites Marvell readers to view the poet and some of his representative lyrics in the context of the anthropological concept of liminality as developed by Victor Turner and enriched by Arnold Van Gennep Jacques Lacan and other observers of the in between aspects of experience The approach differs from previous attempts to explain Marvell in that it allows multidisciplinary and multi media contexts in a broad matrix of the areas of experience and representation that defy boundaries that blur the line at which entrance becomes exit This study acknowledges that the poems discussed and by implication the entire corpus of Marvell's work and the life that produced it derive from a refusal to draw a definite divide In analyzing a small selection of Marvell's life and lyrics as explorations of various realms of liminality in word and image readers can see a passageway to the poet's works that never really reaches a destination instead the unlimited possibilities of the journey remain Thus the in between aspects of the poet and his poetry actually define his technique as well as his brilliance **The Poems of Andrew Marvell** Andrew Marvell,2007 Little known as a poet in his own time Andrew Marvell 1621-78 was a patriotic politician and champion of religious toleration during the Restoration This book presents his poetry accompanied by annotations giving a record of literary philosophical and theological analogues and allusions It also addresses the local points of interpretation **The Saturday Review of Politics, Literature, Science and Art** ,1873 **Andrew Marvell** Annabel M. Patterson,1994 This new study of Andrew Marvell offers a state of the art guide to one of the most intriguing and elusive poets of the seventeenth century Professor Annabel Patterson known for her ability to make serious scholarship engaging provides comprehensive introductions to Marvell's different self representations and places the most famous poems such as The Garden and Horatian Ode in the dialectic they lose when read only in anthologies **The Saturday Review of Politics, Literature, Science,**
