***EXPLANATORY NOTE: The Articles of Confederation were formally agreed upon in Congress two years after independence, but not ratified by all the States until 1781. Often called "The First Constitution of the United States", the document was more akin to a treaty among the thirteen states. The Continental Congress became the Confederation Congress and continued to govern much as it had before, without executive and judicial branches of government. The Articles of Confederation found the United States in a loose union for seven critical years. A meeting in Congress was finally persuaded that the Articles of Confederation must be amended or the nation come to an end.

The Articles of Confederation Illustrated Benjamin Franklin, 2021-02-11 The Articles of Confederation and Perpetual Union was an agreement among the 13 original states of the United States of America that served as its first constitution 1 It was approved after much debate between July 1776 and November 1777 by the Second Continental Congress on November 15 1777 and sent to the states for ratification The Articles of Confederation came into force on March 1 1781 after being ratified by all 13 states A guiding principle of the Articles was to preserve the independence and sovereignty of the states The weak central government established by the Articles received only those powers which the former colonies had recognized as belonging to king and parliament 2 The document provided

clearly written rules for how the states league of friendship would be organized During the ratification process the Congress looked to the Articles for guidance as it conducted business directing the war effort conducting diplomacy with foreign states addressing territorial issues and dealing with Native American relations Little changed politically once the Articles of Confederation went into effect as ratification did little more than legalize what the Continental Congress had been doing That body was renamed the Congress of the Confederation but most Americans continued to call it the Continental Congress since its organization remained the same 2 As the Confederation Congress attempted to govern the continually growing American states delegates discovered that the limitations placed upon the central government rendered it ineffective at doing so As the government s weaknesses became apparent especially after Shays Rebellion some prominent political thinkers in the fledgling union began asking for changes to the Articles Their hope was to create a stronger government Initially some states met to deal with their trade and economic problems However as more states became interested in meeting to change the Articles a meeting was set in Philadelphia on May 25 1787 This became the Constitutional Convention It was quickly agreed that changes would not work and instead the entire Articles needed to be replaced 3 On March 4 1789 the government under the Articles was replaced with the federal government under the Constitution 4 The new Constitution provided for a much stronger federal government by establishing a chief executive the President courts and taxing powers

The Articles of Confederation Bray Jacobson,2017-07-15 It can be confusing to learn that the U S Constitution wasn t the first document governing the United States The Articles of Confederation was a problematic document and the social studies curriculum commonly asks students to understand why and its effect on the Constitution This volume simply breaks down the writing of the Articles as well as its problems for readers unfamiliar with the document or in need of reviewing it Key definitions and explanations are offered in short fact boxes ensuring that readers of all levels can understand the Articles of Confederation
