The Age of the Bachelor

Howard P. Chudacoff,2020-12-08 In this engaging new book Howard Chudacoff describes a special and fascinating world the urban bachelor life that took shape in the late nineteenth century when a significant population of single men migrated to American cities Rejecting the restraints and dependence of the nineteenth century family bachelors found sustenance and camaraderie in the boarding houses saloons pool halls cafes clubs and other institutions that arose in response to their increasing numbers Richly illustrated anecdotal and including a unique analysis of The National Police Gazette the most outrageous and popular men s publication of the late nineteenth and the early twentieth century this book is the first to describe a complex subculture that continues to affect the larger meanings of manhood and manliness in American society The figure of the bachelor with its emphasis on pleasure self indulgence and public entertainment was easily converted by the burgeoning consumer culture at the turn of the century into an ambiguously appealing image of masculinity Finding an easy reception in an atmosphere of insecurity about manhood that image has outdistanced the circumstances in which it began to flourish and far outlasted the bachelor culture that produced it Thus the idea of the bachelor has retained its somewhat negative but alluring connotations throughout the rest of the twentieth century Chudacoff s concluding chapter discusses the contemporary singles scene now developing as the number of single people in urban centers is again increasing By seeing bachelorhood as a stage in life for many and a permanent status for some Chudacoff recalls a lifestyle that had a profound impact on society evoking fear disdain repugnance and at the same time a sense of romance excitement and freedom The book contributes to gender history family history urban history and the study of consumer culture and will appeal to anyone curious about American history and anxious to acquire a new view of a sometimes forgotten but still influential aspect of our national past

Papers Gerald Edwin Hamilton Barrett-Hamilton,1899

The Way of the Bachelor

Alison R. Marshall,2011-02-17 The lives of early Japanese and Chinese settlers in British Columbia have come to define the Asian experience in Canada Yet many men travelled beyond British Columbia to settle in small Prairie towns and cities Chinese bachelors opened the region s first laundries and Chinese cafes They maintained ties to the Old World and negotiated a place in the new by fostering a vibrant homosocial culture based on friendship everyday religious practices the example of Sun Yat sen and the sharing of food This exploration of the intersection of gender and migration in rural Canada in particular offers new takes on the Chinese quest for identity in North America in general With a preface by the Honourable Inky Mark former Member of Parliament for Dauphin Swan River Marquette
