The Russian aggression against Ukraine questioned the values of the liberal regimes and systems upon which the global nuclear order is built. At the heart of this nuclear order lies the 1968 Treaty on the Non Proliferation of Nuclear Weapons NPT which remains until today the cornerstone of the global nuclear disarmament and nonproliferation regime. In this context the book examines new challenges and threats to the global nuclear order. It discusses the deterioration of nuclear norms as well as the increasing number of the states further challenging the NPT regime by attempts to develop nuclear weapons. The book further sheds light on a growing number of states trying to resolve their territorial claims using the nuclear coercion and the umbrella function of their nuclear arsenals. The authors present the loopholes in the existing arms control system and the arms trade which became obvious in the course of the war and analyze the further split between the supporters of the NPT and the Treaty on the Prohibition of Nuclear Weapons TPNW. Scrutinizing the deepening polarization of the supporters and the opponents of nuclear weapons the book includes a new debate about the competing narratives on nuclear deterrence and disarmament. Finally the volume discusses the development and the increase of new missiles and disruptive technologies such as hypersonic missiles, drones and artificial intelligence. This book will appeal to students and scholars of international relations and political science in general and security studies, military and defense studies, peace and conflict studies and foreign policy in particular as well as policy makers interested in a better understanding of nuclear deterrence, the global nuclear order and the impact of Russia's war on Ukraine **In the Shadows of the Kremlin and the White House** Charles Quist-Adade,2001-04-11 In the Shadows of the Kremlin and the White House provides the first comparative study of the Soviet Russian and Western press coverage of Africa.
