Jensen,Giovanni Lamura,2014 Active ageing has become a key phrase in the discourses about healthy aging processes and one important way that it has been achieved in Europe is through the engagement of older people in volunteer work Active Ageing offers a much needed compendium of research on volunteerism among seniors Ranging across eight European countries the contributors highlight how different levels in the structure of volunteering from local to national interact and how these interactions either facilitate or hinder seniors inclusion in voluntary work They go on to offer policy suggestions for a more integrated strategy that can better support this unique group of volunteer workers **Ageing, Ageism and the Law** Israel (Issi) Doron,Nena Georgantzi,2018-11-30 Europe is ageing However in many European countries and in almost all fields of life older persons experience discrimination social exclusion and negative stereotypes that portray them as different or a burden to society This pivotal book is the first of its kind providing a rich and diverse analysis of the inter relationships between ageing ageism and law within Europe *Active Ageing in Europe* Dragana Avramov,Ronald C. Schoenmaeckers,Miroslava Maskova,Council of Europe,2003-01-01 This publication is the second volume of a report which discusses the changing age structure in European countries characterised by the increase in the number of elderly persons and the decrease in the young and working populations It focuses on the demographic characteristics of people aged 80 years and over the fastest growing age group within the population including existing living arrangements health issues gender and socio economic characteristics *The Making of Ageing Policy* Rune Ervik,Tord Skogedal Lindén,2013-01-01 This innovative book provides insightful analyses and critique of policy ideas and practices regarding the challenges and opportunities facing ageing European societies Through pertinent case study examples it elucidates the ideological and institutional factors that underlie policy responses in different European societies It demonstrates the pivotal role of ideas and of international organisations in shaping the policy and practice landscape and driving through key policy reforms in Europe This edited book provides an invaluable resource for policy makers researchers and scholars interested in ageing policy and the political process Sara Arber University of Surrey UK Demographic changes transform societies and

challenge existing institutional solutions and policies. The need for policies addressing these challenges has increasingly been put on the agenda. The Making of Ageing Policy analyzes these innovative policy ideas and practices at both the international and the national level. The book provides insights into the value basis and justifications of ageing policies, the potential for conflict and how policy ideas are embedded in institutional defense and advocacy for institutional change and reform. In terms of policy ideas the economically focused productive ageing dominates but the book finds instances where the broader active ageing approach has gained a hold in policymaking. Ageing policy reforms within pensions and labour market policy include measures to make people extend their working life. In long term care reforms abound and implies changes in the responsibility of financing and provision but the patterns across countries differ substantially. The authors provide normative analysis of ageing policy ideas, divulge political conflicts and consensus on ageing policy and contribute by describing and analyzing the changing institutional landscape of ageing politics and policies throughout Europe. It will prove insightful for academics and researchers in the field but it will also appeal to practitioners who are increasingly dealing with demographic challenges across a wide number of policy sectors in their daily affairs.

**Selected Contemporary Challenges of Ageing Policy** Łukasz Tomczyk, Andrzej Klimczuk, 2017-11-23. This volume Selected Contemporary Challenges of Aging Policy is the most international of all published monographs from the series Czech Polish Slovak Studies in Andragogy and Social Gerontology. Among the scholars trying to grasp the nuances and trends of social policy there are diverse perspectives resulting not only from the extensive knowledge of the authors on the systematic approach to the issue of supporting older people but also from the grounds of the represented social gerontology schools. In the texts of Volume VII interesting are both distinct and coherent elements presenting the role of local regional and global policies in the prism of the countries from which the authors originate the Czech Republic Slovenia Lithuania Latvia Poland Slovakia Italy Turkey and the United States. The chapters show a wealth of methodological approaches to the perception of social policy and its tools. In the texts there are issues related to the idea of active ageing discrimination against older people in the workplace comparability of solutions friendly to employment of older adults in the Czech Republic Poland and Slovakia as well as focused on the importance of educational forms universities of the third age senior clubs folk high schools and other non formal solutions determining an active life in old age. This monograph also attempted to answer the question regarding how to transfer the idea of intergenerational learning into the realm of practice. This issue complements the chapter on the implementation of intergenerational programs in institutions providing long term care support. The book also outlines a public policy on ageing in the perspective of the changes over the last few decades Slovenia and the case demonstrating solutions to accelerate self reliance as a key to active ageing Turkey. We hope that seventh volume of our series will be an intellectual stimulus for further international research on change in social policy and will contribute to the dissemination of best practices as well as contribute to positive social change.

**Active ageing and solidarity between generations in Europe** Axel

Börsch-Supan, Martina Brandt, Howard Litwin, Guglielmo Weber, 2013-06-25 SHARE is an international survey designed to answer the societal challenges that face us due to rapid population ageing. How do Europeans age? Under which circumstances do older people and their families live? How healthy and active are they and how did the crisis affect them? The authors of this multidisciplinary book have taken a first step toward answering these questions based on the recent SHARE data including a new social networks module. **Active Ageing in Europe**, 2012. **Active Ageing**, 1999. Recoge 1 Foreword by Allan Larsson 2 Demographic ageing in Europe 3 Adapting to ageing in workplaces and labour markets 4 Adjusting to ageing in workplaces and labour markets 5 Adding life to years and containing health and care needs through healthy ageing 6 Promoting active ageing: the initiatives of the Commission 7 Related documents and publications from the European Commission on population ageing. *Active Ageing in Europe* Dragana Avramov, 2003. Learning across Generations in Europe Bernhard Schmidt, Hertha, Sabina Jelenc Krašovec, Marvin Formosa, 2014-11-28. Learning across generations in Europe: Contemporary issues in older adult education constitutes an important book in the emergent field of study of older adult learning. The book gives a clear and wide overview on the different concepts, ideas and meanings related to older adults' education, learning and intergenerational learning through strong theoretical standpoints, empirical research and policy directions. The field of older adult education has expanded immensely in recent years since it raised questions that are connected to a rapidly ageing society in very turbulent times of economic and social changes in Europe. This book provides the basis for an in-depth analysis of the understandings and interpretations of education and learning in later life, rethinking the development of different approaches for education of older adults as well as diverse research and evaluation of different forms of older adults' education and learning. It brings together both orthodox approaches to educational gerontology and older adult learning on important emerging issues faced by educators around the globe. The chapters address the contemporary differentiated discussion on diverse phenomena labelled ranging from intergenerational learning to older men learning, providing robust impulses for the development of further theoretical and empirical research on older adult and intergenerational learning. It is the editors' intention that this collection of papers acts as a persuasive argument for formal and non-formal learning agencies to open more doors for older adults. Bernhard Schmidt, Hertha Ph.D. is Full Professor of educational science with focus on continuing education and further vocational training at Institute of Education, University of Tuebingen. His research and writings address the topics of adult education, intergenerational learning, informal adult learning and higher education. Sabina Jelenc Krašovec Ph.D. is Associate Professor of adult education within the Department of Educational Sciences, Faculty of Arts, University of Ljubljana. Her research and writings focus on the education of vulnerable adults and more recently on older adult learning in the community and non-formal contexts. Marvin Formosa Ph.D. is co-ordinator of the Gerontology Unit, Faculty for Social Wellbeing, University of Malta. Recent publications include *Lifelong Learning in Later Life: A Handbook on Older Adult Learning* with Brian Findsen (2011) and *Population Ageing in Malta*.
