facts so as to reveal the origin of many of our current fundamental beliefs thereby freeing our minds to do some honest thinking    **MIND IN THE MAKING** JAMES HARVEY. ROBINSON,2018    The Mind in the Making James Harvey Robinson,1921 The Mind in the Making is a book to awaken every reader to a real understanding of why he thinks and acts as he does It is the well known historian s straightforward account of how our intelligence has evolved into the mental habits of modern life No book for popular reading shows so graphically that our thinking remains medieval in a world that has become complex and modern It will show you whether your thinking is ahead of the times or behind them If some magical transformation could be produced in men s ways of looking at themselves and their fellows no inconsiderable part of the evils which now afflict society would vanish away or remedy themselves automatically If the majority of influential persons held the opinions and occupied the point of view that a few rather uninfluential people now do there would for instance be no likelihood of another great war the whole problem of labor and capital would be transformed and attenuated national arrogance race animosity political corruption and inefficiency would all be reduced below the danger point    The Mind in the Making James Harvey Robinson,1929

**A Manual of the Manufacture of Gas from Tar, Oil, and Other Liquid Hydrocarbons and Extracting Oil from Sewage Sludge** William Burns,1887    The Mind in the Making James Harvey Robinson,2017-10-10 If some magical transformation could be produced in men s ways of looking at themselves and their fellows no inconsiderable part of the evils which now afflict society would vanish away or remedy themselves automatically If the majority of influential persons held the opinions and occupied the point of view that a few rather uninfluential people now do there would for instance be no likelihood of another great war the whole problem of labor and capital would be transformed and attenuated national arrogance race animosity political corruption and inefficiency would all be reduced below the danger point As an old Stoic proverb has it men are tormented by the opinions they have of things rather than by the things themselves This is eminently true of many of our worst problems today We have available knowledge and ingenuity and material resources to make a far fairer world than that in which we find ourselves but various obstacles prevent our intelligently availing ourselves of them The object of this book is to substantiate this proposition to exhibit with entire frankness the tremendous difficulties that stand in the way of such a beneficent change of mind and to point out as clearly as may be some of the measures to be taken in order to overcome them This book is recommended reading by Napoleon Hill
