The McGuffen:

The Great Book of Movie Villains Jan Stacy, Ryder Syvertsen, 1984 *The Great Book of Movie Villains* exposes the evil exploits and unfortunate results of more than 250 of cinema's most dastardly villains. You'll discover their motives, tactics, powers, enemies, and allies, personal idiosyncrasies and weaknesses, and what to do should you meet one of these bad guys in person. The authors discuss the villains' films and their stars, as well as fascinating trivia surrounding the performances that resulted in the evil characters that you love to hate.

Pennsylvania Archives William Henry Egle, 1899 Storyverse and the Long Weekend from Hell William Stone Greenhill, The second Shakespearian war has taken a toll on everyone. Tessa is going blind from her battle with Abigail. Long dead powers have been dredged into regular use by the war, and monsters are taking advantage of the war's aftermath. It is Tessa's first year at Mount Colour Academy, and she's bracing herself for a chaotic year as the outside world interferes with her studies once more. It doesn't take long. There's a madman setting up a promotional stunt to sell weapons in the school library, robbing doctorals of their powers. A mysterious note warns Tessa the Ring of Everything's in danger, and The Forbidden Lord Abigail, driven mad by her father's death, enacts her final plan to alter the time stream and ensure Tessa and her friends cease to exist. Tessa just wants to graduate, but making it to the end of the year will mean gathering allies from across time and space to save history and protect the secrets of the Ring of Everything and its ability to grant its wearer every fictional power.

Pennsylvania Game News, 1943 Trampling the Serpent: Vietnam POW John Fer, Colonel USAF-Retired, 2022-11-14

Vietnam is sometimes called the land of the rising serpent or dragon because its geographical landmass resembles a serpent or dragon in an upward configuration. In this book, taken from Colonel Fer's personal experience of more than six years of Communist incarceration at the hands of the North Vietnamese, one learns of his surprising, actually shocking, awakening from the idyllic world of an idealistic future-oriented combat pilot backward into the ancient world of warfare where brutality toward POWs was the norm. Wounded by shrapnel when his EB 66C aircraft was shot down by surface-to-air missiles on February 4, 1967, he recounts his seventy-three months of captivity, which brought him face-to-face with mistreatment and deprivation and Communist charges that he was a war criminal and subject to tribunals. It was also a world of deprivation that

ignored any considerations of treatment according to international diplomatic agreements or international humanitarian law. A bachelor when he was captured and denied any communication with them for over three years, Colonel Fer articulates his parents' actions in trying to learn his fate for the nearly four years it was unknown to them. Throughout his imprisonment, his resistance to brutal treatment and intense Communist attempts to indoctrinate him with anti-Americanism. Colonel Fer relied on his three faiths in God in America and in his fellow POWs. The release of the POWs in 1973 was a joyous international event of immense proportions, and he describes his return to America on March 8, the attention and the numerous requests for speaking engagements and other public appearances. The events of his return also eventually brought his marriage to Nancy, whom he still holds in great reverence. Colonel Fer describes his experience as a POW as the best thing that ever happened to him because it brought clarity of how to better understand America and its people. **Cobbett's**

Parliamentary Debates, 1880 **Neurobiology of Personality Disorders** Dr. Christian Schmahl, Dr. K. Luan Phan, Dr. Robert O. Friedel, 2018-09-19. Personality disorders are highly prevalent and cause a substantial amount of human suffering and harm not only to the individuals and families directly affected but also to the population at large. These disorders generally have a heritability rate that is in excess of fifty percent, strongly suggesting that the behavioral disturbance they cause has a significant biomedical etiology. However, knowledge about the biological nature of personality disorders and effective treatment of the latter is significantly lacking. Although basic biological principles have overall served well in the foundation of psychiatry, they have received relatively little attention with regard to the areas of personality, temperament, and personality disorders. *Neurobiology of Personality Disorders* is the first book to focus specifically on the neurobiology of disturbed personality. It provides a thorough outline of the principles of neural science that mediate personality and describe what is currently known about how these biological processes are impaired in individuals with personality disorders. Its team of editors and authors are among the most frequently published and highly renowned international neuroscientists in the field of personality disorders, and its coverage of topics is comprehensive, authoritative, and heuristic. **Executive**

The Fabergé Egg Robert Upton, 1988. Upton deserves a standing ovation. Publishers Weekly. When private investigator Amos McGuffin discovers that his ex-wife and daughter have disappeared from their San Francisco apartment, his only clue is a yellowed newspaper clipping describing the murder of his partner eighteen years earlier by a one-time Nazi, Otto Kruger. McGuffin quickly realizes that Kruger has his family. Working from the clipping, the PI finds Klaus Vandenhof, a former Nazi officer still living off the proceeds of his World War II plunder, who proposes a deal: If McGuffin brings him a long-missing Fabergé egg, he will guarantee the safe return of the detective's loved ones. McGuffin reluctantly agrees, and soon the corpses and suspense pile up as McGuffin rushes from the San Francisco to the vineyards of Napa Valley in search of a jeweled egg that may no longer exist but that he needs to exchange for two people who may no longer be alive.
