The Essence and the Margin Laura Rorato, Anna Saunders, 2009 With the expansion of the EU and calls for a European constitution the question of a common European identity has become increasingly pressing in recent times However in the face of diverse national and regional traditions and the absence of an obvious European cultural imaginary the forging of a strong sense of European identity proves problematic This volume brings together case studies of national and regional images from across Europe which together suggest emerging patterns of identification within contemporary Europe patterns which may not necessarily amount to a European identity but rather to a European mode of identification The chronological structure of the volume demonstrates the increasingly problematic nature of national collective memories and past imaginaries in light of emergent marginal voices and images and suggests that it is both from beyond and within the national paradigm that new challenges are now reshaping the cultural imaginary of European communities Focusing on cultural images within film literature national narratives and myths museum exhibitions and architecture this volume is of interest to a wide variety of disciplines in the humanities and presents an interdisciplinary approach to questions of cultural memory and identity formation

The Lasting Influence of the War on Postwar British Film

M. Boyce, 2012-02-14 Many of the most celebrated British films of the immediate post war period 1945-55 seem to be occupied with getting on with life and offering distraction for postwar audiences It is the time of the celebrated Ealing comedies *Hue and Cry* 1946 and *Kind Hearts and Coronets* 1949 Dickens adaptations and the most ambitious projects of the Archers While the war itself is rarely mentioned in these films the war and the conditions of postwar society lie at the heart of understanding them While various studies have focused on lesser known realist films few consider how deeply and completely the war affected British film Michael W Boyce considers the preoccupation of these films with profound anxieties and uncertainties about what life was going to be like for postwar Britain what roles men and women would play how children would grow up even what it meant and what it still means today to be British
