

A person with dark, curly hair and a beard is sitting on the ground in a park, leaning against a large tree trunk. They are wearing a yellow jacket over a black shirt, black pants, and black sneakers with red accents. They are holding a large black sign with white, hand-painted text. The background shows a grassy area with other trees and a building in the distance.

Trapped by History Darryl Cronin, 2021-04-15 The Australian nation has reached an impasse in Indigenous policy and practice and fresh strategies and perspectives are required Trapped by History highlights a fundamental issue that the Australian nation must confront to develop a genuine relationship with Indigenous Australians The existing relationship between Indigenous people and the Australian state was constructed on the myth of an empty land terra nullius Interactions with Indigenous people have been constrained by eighteenth century assumptions and beliefs that Indigenous people did not have organised societies had neither land ownership nor a recognisable form of sovereignty and that they were savage but could be civilized through the erasure of their culture These incorrect assumptions and beliefs are the foundation of the legal constitutional and political treatment of Indigenous Australians over the course of the country's history They remain ingrained in governmental institutions Indigenous policy making judicial decision making and contemporary public attitudes about Indigenous people Trapped by History shines new light upon historical and contemporary examples where Indigenous people have attempted to engage and dialogue with state and federal governments These governments have responded by trying to suppress and discredit Indigenous rights culture and identities and impose assimilationist policies In doing so they have rejected or ignored Indigenous attempts at dialogue and partnership Other settler countries such as New Zealand Canada and the United States of America have all negotiated treaties with Indigenous people and have developed constitutional ways of engaging cross culturally In Australia the limited

recognition that Indigenous people have achieved to date shows that the state is unable to resolve long standing issues with Indigenous people Movement beyond the current colonial relationship with Indigenous Australians requires a genuine dialogue to not only examine the legal and intellectual framework that constrains Indigenous recognition but to create new foundations for a renewed relationship based on intercultural negotiation mutual respect sharing and mutual responsibility This must involve building a shared understanding around addressing past injustices and creating a shared vision for how Indigenous people and other Australians will associate politically in the future

Strangling Aunty: Perilous Times for the Australian Broadcasting Corporation Virginia Small,2021-09-24 Drawing on a wealth of academic research statistics and interviews with key Australian media people including present and former Australian Broadcasting Corporation staffers this book explores the transitions of the ABC under various types of organisational re strategising governance and political shifts The book provides the reader with an authoritative narrative as to how the ABC has lost its iconic status in Australian society and unfolds how the ABC has strayed from its respected public charter which endowed the ABC with a distinctive and important role in informing educating and entertaining the Australian public Successive federal government funding cuts have shrunk staffing levels and services while it has pursued a corporatist model that mimics the trappings and practices of commercial media In that process it has become politicised and trivialised thereby threatening its demise The book is a unique and timely contribution at a time of dwindling interest for the funding of public assets everywhere There is no other book in the market that addresses the decline of the organisation the ABC and analyses the reasons for its demise within an organisational theoretical framework The book is written for an educated general audience with academics and media practitioners specifically in mind and has everyday applications for business organisations operating in the public sector by bringing together important findings of public funding budgets management and organisational strategies and evolution
