Conceptions of Culture Thomas E. Wren,2012-07-16 The concept of culture stands clearly but unsteadily at the heart of multicultural education This book provides a systematic in depth understanding of the role that culture plays in the massive literature of multicultural education as multiple and antithetical definitions of culture exist The book also shows multicultural educators how to discern the definition used in any particular book or article Thomas Wren deploys methods and concepts from philosophy and the social sciences to provide an analytic framework within which the history and current state of culture theory can be understood both for its own sake and for its educational significance Although the book is full of theory it is not a theoretical book in the usual sense It is a road map accompanied by the related theoretical information and tools that graduate students and faculty need to 1 navigate the complex terrain of multicultural education literature 2 apply the book's analytical framework to that literature and to their own future practice and 3 anticipate the social changes and accompanying conceptual changes in our notions of culture that are now occurring as part of the cultural hybridity of today's students

Beverly Daniel Tatum,1999-06-24 Walk into any racially mixed high school and you will see Black youth seated together in the cafeteria Of course it s not just the Black kids sitting together the White Latino Asian Pacific and in some regions American Indian youth are clustered in their own groups too The same phenomenon can be observed in college dining halls faculty lounges and in corporate cafeterias What is going on here Is this self segregation a problem we should try to fix or a coping strategy we should support How can we get past our reluctance to talk about racial issues to even discuss it And what about the other questions we and our children have about race Beverly Daniel Tatum is a renowned authority on the psychology of racism She asserts that we do not know how to talk about our racial differences Whites are afraid of using the wrong words and being perceived as racist Parents of color are afraid of exposing their children to painful racial realities too soon Tatum understands that the vocabulary of race is loaded and that embarrassment and awkwardness often stymie conversations about this subject yet she believes that these obstacles can and must be overcome if we are to bring about change In Why Are All the Black Kids Sitting Together in the Cafeteria And Other Conversations About Race Dr Tatum provides us with a new way of thinking and talking about race through the lens of racial identity She explains that all of us have a racial identity and must strive to affirm it For people of color the development of a constructive racial identity requires being able to recognize and reject the bombardment of negative stereotypes and to embrace a history of resistance and empowerment rather than passive victimization For Whites the challenge is to engage in a process of racial identity development which leads to an awareness of White privilege and a determination to actively work against injustice and this requires the strength to reject a system that awards them and to reclaim the legacy of White allies For many this is uncharted territory This book provides a road map for those who want to make the journey and better understand the racial dynamics of their daily lives Tatum extends her ideas about racial identity development beyond the usual Black White paradigm to embrace the unique circumstances of Latinos American Indians Asians as well as biracial youth Also included is a list of resources for further reading as well as a list of books for parents and teachers to recommend to children of all ages Using real life examples and the latest research Tatum presents strong evidence that straight talk about our racial identities whatever they may be is essential if we are serious
