Teaching Powerful Writing:

Powerful Writing Structures Adrienne Gear, 2020-02-06 This timely book uses thinking structures to deepen student writing. It revolves around brain pockets to help students appreciate the qualities of different writing forms. Some powerful examples include memory pockets for personal narrative writing, fact pockets for nonfiction and imagination pockets for story writing. Detailed lesson plans are featured along with sample anchor books and book lists. Based on extensive classroom testing, student samples throughout the book illustrate this unique approach to teaching writing. Suggestions for setting up an effective writing program and assessment tips for guiding instruction complete this comprehensive approach to developing a year-long writing program.

Powerful Writing Strategies for All Students Karen R. Harris, 2008 Highly effective field-tested lesson plans that will help transform struggling elementary and middle school students into skilled writers.

Powerful Thinking, Powerful Writing Bek Galloway, 2012 Powerful Thinking Powerful Writing has the potential to transform teaching practice across the learning programme and in the process achieve a phenomenal advance in the standard of students thinking and writing. Each book offers nine thinking and writing contexts covering a range of learning areas. Within each context, students develop a deep and careful thinking strategy for a particular thinking skill before being guided through a step-by-step process to help them transform their powerful thinking into even more powerful writing.

Time to Write Beth Cregan, 2022 I don't have any ideas. How do I set the scene? This is too hard. Heard any of those before? What if there was a way to nurture our students' imaginations, confidence and creative problem-solving capabilities while building the essential writing skills that will set them up for success across the curriculum? In *Time to Write: A Powerful Writing Practice for Your Classroom*, Beth Cregan calls on her own extensive writing and teaching experience to deliver a framework for a classroom writing practice that does just that. Supported by over thirty classroom-ready activities to power up your writing program in fifteen-minute blocks, the strategies set out in *Time to Write* will enable you to meet students where they are, encourage reflective practices and build a community of empowered independent writers. The result is a class that hums with creative energy. It's time to flip the script on what it means to write and be creative to maximise the creative potential of the students in your classroom and draw out the confident writers within. All you need is fifteen minutes, something to write with and a sense of curiosity. What are you waiting for? It's time to write.

Teaching Powerful Writing Bob Sizoo, 2001-08-01 Students have trouble applying a novel's literary techniques in their own writing, so give them something short. Read aloud these personal narratives, each highlighting a different writing technique, and watch students' writing take off.

Writing Power Adrienne Gear, 2011 A wide range of effective writing techniques are outlined and reinforced throughout the book with suggested anchor books for each lesson. The fundamentals of the writing process and the 6 Traits are integrated into this unique examination of how developing an awareness of the reader's thinking can influence and affect a student's ability to write.
