*Art Education Today* ,1935 **Anyone Can Teach Art: How to Confidently Teach Art in Your Classical Homeschool** Julie Abels,2020-04-11 Me Teach art I don't even know how to draw Many of us started there We felt a total lack of confidence about teaching art We wanted to give our children all the benefits of art in their education but didn't know how Some of us

did a few colorful hands on projects with our children but we could see they weren't really learning the basics of art. We had never learned the basics of art ourselves. But then after a few years of teaching art with the classical model of education we realized that teaching art can be as simple as teaching any other subject and we can learn it alongside our children. Now we've condensed our knowledge here for you. Instead of a how to draw book *Anyone Can Teach Art* presents the scope and sequence of a classical Christian art curriculum for K-12 students. In this book we break it all down for you. By the end of this book you'll know Why art should be included in everyone's education. What are the basics of art creation and art appreciation. How to use the ancient amazingly effective classical model of education to teach art. Which simple drills and exercises to include in art projects to help students advance their skills. How to proceed in art education once your students have mastered the basics. What's stopping you from including art in your child's education. Learn the basics and follow the plan in this book and you'll realize how easy it really is to teach art.

**Teaching Art** Nigel Meager, 2012 With accessible and practical advice *Teaching Art* will help you develop effective teaching methods for your art lessons give you the confidence to try something new and understand that you don't have to be good at art to teach it well.

For those looking for firm principles of art teaching and best practice this book presents many important issues in art education with clarity and insight. Based on first hand experience of teaching children the book uses many examples from the school situation. Essential topics such as developing skills through using media how children draw producing original artwork developing ideas and Art and the digital image are tackled with realism and imagination. An important feature is that these subjects are not seen in isolation but are purposefully linked with other areas of the curriculum. The author's approach should encourage teachers to develop and think about art in the National Curriculum. His writing shows a deep sympathy with children and sensitivity to the real task of teaching art to the young.
