Education and Peacebuilding Tracey Holland, J. Paul Martin, 2014-04-24 This book assesses the role of human rights education HRE in the peacebuilding field Today most governments international organisations and non governmental organisations recognise the importance of human rights in peace and democracy building activities in post conflict regions However compared with other components of peacebuilding little attention and funding have been given to the cultivation of human rights knowledge and skills within these populations Almost nothing has been committed to understanding how HRE

is best accomplished in such difficult circumstances Human Rights Education and Peacebuilding demonstrates the promise of HRE programs to help bring about peace within challenging post conflict contexts Each chapter of this book a identifies the short and medium term impacts of seven different HRE programs on their respective target groups and b provides an analysis of the peculiar local contextual factors that influenced each program s rationale for human rights education More specifically each chapter addresses these critical questions How are communities around the world using HRE to help rebuild their lives in the aftermath of an armed conflict How does HRE respond local problems and needs How similar are the human rights impacts in the different projects How can we understand the promise and challenges associated with HRE as a component of community peace building This book will be of much interest to students of peacebuilding conflict resolution human rights education studies and IR in general

Growing Human Rights and Values in Education Jan Nieuwenhuis,2007

This title explores human issues in a quest to understand values morals and human rights *Human Rights in this Age of Uncertainty* Vjollca Krasniqi,Jane McPherson,2022-11-05 This book grounded in a human rights framework takes a close look at social work approaches and practices in Southeast Europe Human rights are central in today s understanding of social work as an academic discipline and as a professional practice Looking at social work through a human rights lens unmasks inequality and discrimination promotes ethical engagements and contributes to the social political and economic betterment of society Moreover human rights and social work are interdependent and have far reaching implications at macro mezzo and micro levels both in the realm of social policy and in professional practice This collection of eight chapters provides an overview of human rights practices in social work in Albania Bosnia and Herzegovina Bulgaria Croatia Kosovo Romania and Slovenia It presents state of the art research on human rights and social work through individual country focused chapters In addition it includes an integrative introductory chapter that identifies and discusses the commonalities and differences across the region as well as future directions The book takes an integrated approach with conversations among the contributors on three main questions What is the state of human rights in social work How are human rights practiced in social work What are the prospects for an integrated approach to human rights in social work in contemporary Southeast Europe *Human Rights in this Age of Uncertainty* is essential reading for social work academics and practitioners in Southeast Europe due to its geographic focus and standpoints from the specific countries of the region The book also should appeal to a wider European audience especially as the book features chapters from both inside and outside of the European Union as well as to an international audience of social work scholars In addition policy makers may find the book a useful resource because human rights discourse features prominently in the international approaches to welfare systems across Southeast Europe as part of the Europeanisation processes currently at play *Mirrors - Manual on combating antigypsyism through human rights education* Council of Europe,2015-05-22 Everyday in Europe people associated with Roma or Traveller communities are exposed to acts of discrimination and exclusion on a scale that has

stopped shocking people and institutions Too often it is only when lives are claimed that we wake up to the persistence of realities that have no place in any democratic society Antigypsyism is a term used to refer to the multiple forms of biases prejudice and stereotype that motivate the everyday discriminatory behaviour of institutions and many individuals towards Roma Antigypsyism is a form of racial discrimination Most antigypsyism acts are illegal and contrary to human rights even when they are not prosecuted and even if they are widespread and often ignored or tolerated Antigypsyism undermines the moral fabric of societies Democracy and human rights cannot take root where discrimination is institutionalised tolerated or conveniently ignored Education plays a central role in combating and overcoming antigypsyism because the result of centuries of prejudice cannot be fought by laws and courts alone Human rights education learning for through and about human rights provides an ideal approach to raising awareness about antigypsyism and promoting a culture of universal human rights This manual was produced within the Roma Youth Action Plan of the Council of Europe to provide teachers trainers and facilitators of non formal education processes with essential information and methodological tools to address antigypsyism with young people of all ages and in any social cultural setting It is equally suitable for work with groups of non Roma Roma only or mixed groups Combating antigypsyism is a task for all of us learning about it is a necessary starting point As human beings we have the capability to discriminate and impose prejudice upon others Fortunately we are also capable to learn and change Mirrors is a great help to help us notice this correct distorted views and to recognise ourselves in the eyes of others

The SAGE Handbook of Human Rights Anja Mihr, Mark Gibney, 2014-07-21 The SAGE Handbook of Human Rights will comprise a two volume set consisting of more than 50 original chapters that clarify and analyze human rights issues of both contemporary and future importance The Handbook will take an inter disciplinary approach combining work in such traditional fields as law political science and philosophy with such non traditional subjects as climate change demography economics geography urban studies mass communication and business and marketing In addition one of the aspects of mainstreaming is the manner in which human rights has come to play a prominent role in popular culture and there will be a section on human rights in art film music and literature Not only will the Handbook provide a state of the art analysis of the discipline that addresses the history and development of human rights standards and its movements mechanisms and institutions but it will seek to go beyond this and produce a book that will help lead to prospective thinking

China and International Human Rights Na Jiang, 2013-12-12 This book is designed to introduce law students legal actors and human rights activists particularly participants in human rights dialogues with China to the process and reality of a newly confident China s participation in the international human rights system albeit with inherent challenges From an international and comparative perspective one of the key findings of the author s research is that progress towards human rights depends more on judges than on legislators Chinese legislators have enacted a series of reforms in order to better protect human rights Unfortunately these reforms have not led to greater adherence to China s international human rights

obligations in practice. The reforms failed because they have generally been misunderstood by Chinese judges who often have a limited understanding of international human rights norms. Specifically this book will examine how judicial misunderstandings have blocked reforms in one specific area the use of severe punishments based on international human rights theory and case studies and data analyses. This examination has several purposes. The first is to suggest that China ratify the ICCPR as the next step for its substantive progress in human rights and as a good preparation for its re-applying to be a member of the UN Human Rights Council in the future. The second is to explain how judges could be better educated in international human rights norms so as to greatly reduce the use of severe punishments and better comply with China's human rights obligations. The third is to demonstrate how the international community could better engage with China in a manner that is more conducive to human rights improvements. The author's ultimate goal is to enhance dialogue on human rights in China between judges and the Chinese government between Chinese judges and their foreign counterparts and between China's government and the international community. Another significant aim of this book is to clarify the controversial question of what obligations China should undertake before its ratification of the ICCPR and to re-examine trends in its developing human rights policy after standing down from the Council in late 2012. The tortuous progress of China's criminal law and criminal justice reforms has confirmed that Chinese judges need further instruction on how to apply severe punishments in a manner consistent with international standards. Judges should be encouraged to exercise more discretion when sentencing so that penalties reflect the intent of relevant domestic laws as well as the international human rights standards enumerated in the ICCPR. In order to better educate and train judges this book contains introductory chapters that examine the severe punishments currently available to Chinese judges from an international human rights perspective. To illustrate how Chinese justice currently falls short of international norms this paper also examines several cases that are considered to be indicative of China's progress towards greater respect for human rights and the rule of law. These cases demonstrate that China still has a long way to go to achieve its goals at least before abolishing the death penalty forced labor and torture.

[Education and Human Rights](#) M.L. Narasaiah, 2010 [Educating for Human Dignity](#) Betty A. Reardon, 2010-08-03 Issues of universal human rights are critically important topics in education today. Educators, scholars and activists urge schools to promote awareness and understanding of human rights in their curricula from the earliest levels. Written by Betty A. Reardon one of the foremost scholars on human rights education for the primary and secondary levels. Educating for Human Dignity is designed for both teachers and teacher educators. It is the first resource offering both guidance and support materials for human rights education programs from kindergarten through high school. It opens possibilities for a holistic approach to human rights education that directly confronts the values issues raised by human rights problems in a context of global interrelationships. [International Handbook of Inter-religious Education](#) Kath Engebretson, Marian de Souza, Gloria Durka, Liam Gearon, 2010-08-17 This Handbook is based on the conviction of its editors

and contributing authors that understanding and acceptance of as well as collaboration between religions has essential educational value The development of this Handbook rests on the f ther assumption that interreligious education has an important role in elucidating the global demand for human rights justice and peace Interreligious education reveals that the creeds and holy books of the world s religions teach about spiritual systems that reject violence and the individualistic pursuit of economic and political gain and call their followers to compassion for every human being It also seeks to lead students to an awareness that the followers of religions across the world need to be and to grow in dialogical relationships of respect and understanding An essential aim of interreligious education is the promotion of understanding and engagement between people of different religions and therefore it has great potential to contribute to the common good of the global community Interreligious education has grown from the interfaith movement whose beginning is usually identified with the World Parliament of Religions held in Chicago in 1893 This was the first time in history that leaders of the eastern and western religions had come together for dialogue and to consider working together for global unity *Teaching Human Rights* United Nations.
