Teaching Toward Freedom:

Teaching Toward Freedom William Ayers, 2004-09-10 In *Teaching toward Freedom* William Ayers illuminates the hope as well as the conflict that characterizes the craft of education how it can be used in authoritarian ways at the service of the state the church or a restrictive existing social order or as he envisions it as a way for students to become more fully human more engaged more participatory more free Using examples from his own classroom experiences as well as from popular culture film and novels Ayers redraws the lines concerning how we teach why we teach and the surprising things we uncover when we allow students to become visible vocal authors of their own lives and stories This lucid and inspiring book will help teachers at every level to realize that ideal

Teaching Toward Democracy William Ayers, Kevin Kumashiro, Erica Meiners, Therese Quinn, David Stovall, 2015-11-17 *Teaching Toward Democracy* examines the contested space of schooling and school reform with a focus on the unique challenges and opportunities that teaching in a democratic society provides Teaching in and for democracy involves developing particular qualities of mind that teachers explore and work to develop as they become more effective educators Some chapters open with familiar experiences in the lives of teachers in schools working with parents and communities or dealing with classroom discipline and management and illuminate that commonplace in new helpful and sometimes startling ways Other chapters present possible interventions any teacher might make in any classroom for example using the arts as an organizing center and metaphor for teaching more generally or rethinking the press of politics on our every day practice This book foregrounds the central idea that democratic ideals are a necessary starting point and context in which to enact our teaching here and now

Teaching to Difference? The Challenges and Opportunities of Diversity in the Classroom Nicole E. Johnson, Stacey-Ann Wilson, 2014-08-11 Teaching to Difference The Challenges and Opportunities of Diversity in the Classroom offers a comparative perspective on the pedagogical and cultural issues in managing differences and diversity in the classroom Using reflections and experiential analysis the volume presents perspectives on the experiences of teaching and learning through differences of race ethnicity culture sexual orientation and gender language special needs and geography from contexts such as the United States Canada New Zealand and Israel The reflections are presented from the viewpoint of minority teaching professionals and white educators teaching diverse student populations ranging from K 12 to college students and pre service teachers This volume provides a lens into the questions reflections and experiences of teachers and practitioners when they encounter difference in the classroom The essays highlight the trepidation and frustration educators feel when they perceive themselves to be ill prepared for diversity in their classrooms However there are also essays of triumph and success when teachers feel they have reached their students in a meaningful way Additionally through the experiences depicted teachers describe their processes of connecting to students how they determined what worked and did not work in their journey and what they learned from the experience that continues to impact them [Integrating Service Learning and Multicultural Education in Colleges and Universities](#) Carolyn R. O'Grady, 2014-04-08 The focus of this book is on the ways in which service learning and multicultural education can and should be integrated so that each may be strengthened and consequently have greater effect on educational and social conditions It offers a significant attempt to forge a dialogue among practitioners of service learning and multicultural education The overriding theme is that service learning without a focused attention to the complexity of racial and cultural differences can reinforce the dominant cultural ideology but academic work that seeks to deconstruct these norms without providing a community based touchstone isolates students and

schools from the realities of the larger communities of which they are part Although the chapter authors provide varied perspectives on the benefits and challenges of integrating multicultural education and service learning they all are committed to a vision of education that synthesizes both action and reflection None of the authors pretend to have all the answers to what this integration should look like nor do they believe that today's social problems are easily ameliorated through education Rather they share theories practices failures and triumphs in order to further the conversation about the importance of aligning what educators say about the world and how they act in and on it These authors share the view that multicultural education is truly transformative for students only when it includes a community action component and likewise service learning is truly a catalyst for change only when it is done from a multicultural and socially just perspective It is their hope that the ideas explored in this book will further the work of those who share a commitment to the integration of action and reflection

Learning to Speak a New Tongue Fumitaka Matsuoka, 2011-09-14 *Learning to Speak a New Tongue* attempts to respond to a timely question facing America today What holds people together in a fragmented world The response comes from a religious community that has not been very visible Asian Americans The author employs the threefold epistemological scaffold familiar to Asian Americans 1 translocal value orientation embedded in the experiences of racialization 2 a heightened sensitivity to pathos arising out of our dissonance with the societal norms and values and 3 amphibolous spirituality that is a co existence of multiple religious traditions without any resolution of their differences The angle of vision embedded in this epistemological framework of Asian Americans lives may well provide a clue to an alternate architectural paradigm in building a new peoplehood and to redefine democratic freedom as the historical paradigm of American peoplehood *Educational Times*, 1887 **Educational News** Albert Newton Raub, 1891 **Journal of Education**, 1894
