Paul Morris, John Williamson

Teaching Year Two Year 2:

Teacher Education in the Asia-Pacific Region Paul Morris, John Williamson, 2013-10-08 This book investigates the relationships between education and national development in an area of the world where both have acquired considerable importance. It questions assumptions which view education primarily as a direct investment in human capital and approaches which measure the efficacy of educational provision solely in terms of quantifiable differences between inputs and outputs. Unlike most of the more general works in this field it does not set out either to confirm or to refute a particular theory. Instead the main perspectives which have been adopted to explain the role of education in development are explored. The role of education in the development of eight societies in East Asia including Japan, Hong Kong, Singapore, Taiwan, South Korea, Malaysia, Macau, and the People's Republic of China is examined. These societies are compared in order to highlight the diverse and complex role played by education in their development. Teaching Beginning Guitar Class Bill Swick, 2017 As guitar instruction increases in popularity in secondary schools many band, choir, and orchestra teachers are asked to teach guitar. In one helpfully concise volume Teaching Beginning Guitar Class: A Practical Guide provides all of the practical tools that are necessary to teach guitar in the classroom, especially for music instructors who are not guitar specialists. Formatted to follow the school year from summer planning to opening weeks of the fall semester to a week-to-week timeline for the full school year, Teaching Beginning Guitar Class encompasses all possible needs for a non-guitar playing music instructor navigating the world of guitar instruction in a classroom setting. In twelve expertly organized chapters, author and veteran guitar teacher Bill Swick gives hard and fast guides for instruction, providing reassurance alongside invaluable tips for novice guitar educators. This book addresses questions such as: I Do Not Play Guitar, Why Do I have to Teach Guitar? What is the Classroom Lifespan of a Guitar? and New Students in January, while also providing practical solutions including basic setup, how to select the correct method book, and equipment maintenance.
