Boeddrich,2007 Cross cultural means not only the differences between ethnic racial or national groups It is more Cross cultural confrontations arise by the differences of genders educational levels differences in thinking of diverse companies departments e g production versus research development marketing versus finance the mix of musicians or styles of painting However there is a lot of danger in cross cultural collaboration Diversity means different views opinions values and objectives easily generating misunderstandings and quarrels possibly ending up with serious conflicts The conflicts may trigger new approaches and breakthroughs or lead to a state of frozen relations and stagnation Sensitivity to the values and views of other cultures open communication and aware leadership are traits helping to capitalize on cross cultural influences In further discussions with our friends of the EACI board we changed our mind for the new conference topic to CROSS CULTURAL INNOVATION Cross cultural Innovations are new and origin problem solutions which are generated in confronting problems with cross cultural aspects In many cases such solutions are breakthroughs and the start of a paradigm shift Another advantage of such solutions is that they even influence the subconscious of stakeholders problems Only cross cultural solutions minimize the risk of hidden problems which develop under the surface in merger projects Especially mergers of big companies are successful if change managers are able to transfer cross cultural conflicts in new challenging objectives Bridging cultural gaps by visionary leadership is the way to bring people together and to create new common innovative enterprises or departments
