The Business of Medical Practice David E. Marcinko, Hope Rachel Hetico, 2010-12-15 Praise for the previous edition: This comprehensive multi authored text contains over 450 pages of highly specific and well documented information that will be of interest to physicians in private practice, academics and in medical management. Chapters are readable, concise yet complete and well developed. I could have used a book like this in the past. I will certainly refer to it frequently now. 4 stars Carol EH Scott Conner MD PhD MBA American College of Physician Executives Does Health 2.0 enhance or detract from traditional medical care delivery and can private practice business models survive? How does transparent business information and reimbursement data impact the modern competitive healthcare scene? How are medical practices, clinics and physicians evolving as a result of rapid health and non health related technology change? Does transparent quality information affect the private practice ecosystem? Answering these questions and more, this newly updated and revised edition is an essential tool for doctors, nurses and healthcare administrators, management and business consultants, accountants and medical, dental, business and healthcare administration graduate and doctoral students. Written in plain language using nontechnical jargon, the text presents a progressive discussion of management and operation strategies. It incorporates prose, news reports and regulatory and academic perspectives with Health 2.0 examples and blog and internet links as well as charts, tables, diagrams and Web site references, resulting in an all encompassing resource. It integrates various medical practice business disciplines from finance and economics to marketing to the strategic management sciences to improve patient outcomes and achieve best practices in the healthcare administration field. With contributions by a world class team of expert authors, the third edition covers brand new information including: The impact of Web 2.0 technologies on the healthcare industry, Internal office controls for preventing fraud and abuse, Physician compensation with pay for performance, trend analysis, Healthcare marketing, advertising, CRM and public relations, eMRs, mobile IT systems, medical devices and cloud computing and much more.
