State Of Shame:

Shame, Pride, and Relational Trauma Ken Benau, 2022-03-17 *Shame Pride and Relational Trauma* is a guide to recognizing the many ways shame and pride lie at the heart of psychotherapy with survivors of relational trauma. In these pages readers learn how to differentiate shame and pride as emotional processes and traumatic mind/body states. They will also discover how understanding the psychodynamic and phenomenological relationships between shame, pride, and dissociation benefit psychotherapy with relational trauma. Next, readers are introduced to fifteen attitudes, principles, and concepts that guide this work from a trans-theoretical perspective. Therapists will learn about ways to conceptualize and successfully navigate complex patient/therapist shame dynamics and apply neuroscientific findings to this challenging work. Finally, readers will discover how the concept and phenomena of *pro-being-pride*—that is, delighting in one's own and others' unique aliveness—helps patients transcend maladaptive shame and pride and experience greater unity within, with others, and with the world beyond.

Abortion Law in Transnational Perspective Rebecca J. Cook, Joanna N. Erdman, Bernard M. Dickens, 2014-08-13 It is increasingly implausible to speak of a purely domestic abortion law as the legal debates around the world draw on precedents and influences of different national and regional contexts. While the United States and Western Europe may have been the vanguard of abortion law reform in the latter half of the twentieth century, Central and South America are proving to be laboratories of thought and innovation in the twenty-first century, as are particular countries in Africa and Asia. *Abortion Law in Transnational Perspective* offers a fresh look at significant transnational legal developments in recent years, examining key judicial decisions, constitutional texts, and regulatory reforms of abortion law in order to envision ways ahead. The chapters investigate issues of access, rights, and justice, as well as social constructions of women, sexuality, and pregnancy through different legal procedures and regimes. They address the promises and risks of using legal procedure to achieve reproductive justice from different national, regional, and international vantage points, how public and courtroom debates are framed within medical, religious, and human rights arguments, the meaning of different narratives that recur in abortion litigation and language, and how respect for women and prenatal life is expressed in various legal regimes. By exploring how legal actors advocate, regulate, and adjudicate the issue of abortion, this timely volume seeks to build on existing developments to bring about change of a larger order.

Philosophical Perspectives on Contemporary Ireland Clara Fischer, Áine Mahon, 2019-11-25 This is the first book to bring a philosophical lens to issues of socio-political and cultural importance in twenty-first century Ireland. While the social, political, and economic landscape of contemporary Ireland has inspired extensive scholarly debate both within and well beyond the field of Irish Studies, there is a distinct lack of philosophical voices in these discussions. The aim of this volume is to enrich the fields of

Philosophy and Irish Studies by encouraging a manifestly philosophical exploration of contemporary issues and concerns The essays in this volume collectively address diverse philosophical questions on contemporary Ireland by exploring a variety of themes including diaspora exile return women s bodies and autonomy historic injustices and national healing remembering and commemoration institutionalization and containment colonialism and Ireland as home conflict and violence Northern Ireland and the peace process nationalism patriotism and masculinities ethnicity immigration and identity and translation art and culture Philosophical Perspectives on Contemporary Ireland marks a significant contribution to contemporary theorizations of Ireland by incorporating both Irish and transatlantic perspectives It will appeal to a broad audience of scholars and advanced students working in philosophy Irish Studies feminist theory history legal studies and literary theory Beyond academia it will also engage those interested in contemporary Ireland from policy and civil society perspectives
