## **State Sovereignty As Social Construct:**

**State Sovereignty as Social Construct** Thomas J. Biersteker, Cynthia Weber, 1996-05-02 State sovereignty is an inherently social construct The modern state system is not based on some timeless principle of sovereignty but on the production of a normative conception that links authority territory population and recognition in a unique way and in a particular place the state The unique contribution of this book is to describe and illustrate the practices that have produced various sovereign ideals and resistances to them The contributors analyze how the components of state sovereignty are socially constructed and combined in specific historical contexts **Chapman Law Review** ,2004 Sovereignities Raia Prokhovnik, 2007-11-12 Sovereignty is sometimes regarded as a concept with a fixed meaning as something that can only be kept or lost and which at the present time is under threat from globalisation the erosion of the nation state and European integration Raia Prokhovnik develops a strong argument for sovereignty as a robust concept with many conceptualisations in the past and capable of further fruitful reconceptualisation in the future The book explores the history of the concept contemporary theoretical developments and current political issues around sovereignty that have crucial practical and institutional implications **Why is There No NATO in Asia?** Amitav Acharya, 2005 **International Territorial Administration** Ralph Wilde, 2008 The book is the first comprehensive treatment of the reasons why international organizations have engaged in territorial administration from the League of Nations in Danzig during the inter war period to the UN in East Timor recently and Kosovo today Moving beyond the fashionable and misleading use of terms like post conflict reconstruction and state building to describe the role of international territorial administration this book engages in a complex analysis of the various purposes with which this activity has been associated some of which for example settling disputes over sovereignty have nothing to do with perceived local incapacities for governance The book goes beyond territorial administration by the UN covering the conduct of this activity by international organizations generally thereby analyzing lesser known projects like the EU Administration in Mostar 1994 6 It addresses instances of partial as well as plenary administration such as the role of the Office of the High Representative in imposing legislation in Bosnia and Herzegovina since 1996 By revealing the complex and diverse range of objectives which international organizations have attempted to realize through territorial administration and establishing the commonalities and differences between the administration projects in this respect the book establishes the contours of an international policy institution to rank alongside peacekeeping and humanitarian intervention By doing so it provides a framework through which some of the key questions relating to such projects concerning legitimacy authority and applicable law can be addressed It also reveals a secret history of international organizations throughout the 20th Century complementing work on their role in managing relations between states by exposing their role within particular states and non state territories beyond the well documented activity of peacekeeping by military forces The State, the Crisis of State Institutions, and Refugee Migration in the Horn

of Africa Wondem Asres Degu,2007      Regional Integration and Democracy Jeffrey J. Anderson,1999 This work explores the interrelationship between democracy and regional integration Although centred in Europe the volume shifts terms of discussion on integration and democracy by including case studies outside of Europe It also analyzes the European Union s democratic deficit the impact of regional integration of national democracy and the dynamic interactions between democracy and integration elsewhere in the world      **A Baltic League as a Construct of the New Europe** Marko Lehti,1999 The emergence of the idea of Baltic Sea unity and of Baltic cooperation seem to be the issues which unify the two big epoch making periods the end of the First World War and the end of the Cold War In both periods the Baltic Sea connection has been seen to offer a coordinate for remapping the location of the eastern Baltic nations the Estonians and Latvians in particular Why has the Baltic Sea area played so important a role as a construct of the new Europe This is the question examined in this study which focuses on the period after the First World War when the disintegration of European multinational empires meant a shift in the international system from the hegemony of a few great powers to the heterogeneity of small states As a part of this process the concepts of sovereignty and national self determination were redefined by the small states themselves so that they would manage to find their place in the world of the great powers One expression of this transition period was a lively Baltic cooperation which attained an exceptional pitch of intensity in the Europe of its time      *Theories of International Relations: Approaches to international relations: structuralism* Stephen Chan,Cerwyn Moore,2006 Comprises 80 articles representing the most influential theoretical writings by international relations scholars Introduced by an essay from Stephen Chan and Cerwyn Moore the four thematically organised volumes cover the major traditions of IR theory Together these four volumes provide broad coverage of the subject and historical depth      **International Law and Global Governance** Michelle Sanson,2008      *Critical International Relations Theory After 25 Years* Nicholas John Rengger,Ben Thirkell-White,2007-09-03 This 2007 book brings together a team of world class critical theory scholars      **Identity Politics** Martin J. Dent,2004 This comprehensive volume examines fifteen cases across the world where a violent or semi violent conflict exists between a national minority inhabiting a region in a larger independent country and the government of that country It studies the reasons for the growth of national separatism and the failure of attempts to reconcile the dissident regions to the national government The book outlines the urgent need for a new quantumised status of a kind that could satisfy the national minorities without alienating the governments such an agreement could allow the national minority home rule powers over internal affairs while leaving the management of foreign affairs and the international profile of the larger country to the central government Identity Politics breaks new ground and challenges several accepted views of the minimum requirement for the existence of a state Ideally suited to courses on security studies conflict resolution and international relations the book will also prove useful for peacemakers in national governments and international institutions      *Florida Law Review* ,2004      **Foreign Policy of the European Union Towards Latin**

**American Southern Cone States (1980-2000)** Andrea Ribeiro Hoffmann, 2004 The study addresses the question of whether or not the EU's foreign policy towards Latin American Southern Cone States Argentina Brazil Paraguay and Uruguay which created in 1991 the Southern Cone Common Market MERCOSUR has become more cooperative since the mid to end 1980s and why a change if any has occurred It explores recurrent explanatory factors pointed out in the literature EU's intention to balance the US hegemony accession of Portugal and Spain to the EU and the processes of democratization economic liberalization and regional integration taking place in the Southern Cone States in two case studies foreign direct investment and agricultural trade The conceptual framework includes hypotheses derived from three theoretical approaches in the discipline of International Relations Neorealism Utilitarian Liberalism and Identity Constructivism **The Social Construction of Contemporary International Hierarchy** Roxanne Lynn Doty, 1991 **Political Economy, Political Science and Sociology**, 1900 Peace Pact David C.
