On Film Stephen Mulhall, 2015-12-14 The first edition of Stephen Mulhall's acclaimed *On Film* was a study of the four Alien films and made the highly original and controversial argument that films themselves can philosophise. In its second edition *On Film* increased its breadth and vision considerably to encompass films such as the Mission Impossible series and Steven Spielberg's *Minority Report*. In this significantly expanded third edition Stephen Mulhall adds new chapters on the Jason Bourne films, the fourth Mission Impossible movie, JJ Abrams' *Star Trek* and *Star Trek Into Darkness* and Ridley Scott's *Prometheus* in which he returns to the Alien universe he created. In so doing Mulhall reappraises in fascinating ways the central issues taken up in earlier editions of *On Film*: the genres of science fiction and thriller; the impact of digital as opposed to photographic modes of technology on the nature of cinema as a medium and its relation to television; and the fate of sequeldom in mainstream contemporary cinema with its emphasis on remakes, reboots and multi-media superhero franchises. *On Film* third edition is essential reading for anyone interested in philosophy, film theory and cultural studies and in the way philosophy can enrich our understanding of cinema.

The Official World Mark Seltzer, 2016-03-31 In his virtuosic new book noted cultural critic Mark Seltzer shows how suspense as art form and form of life depicts and shapes the social systems that organize our modern world. Modernity's predicament Seltzer writes is a society so hungry for reality that it cannot stop describing itself and that makes for a world that continuously establishes itself by staging its own conditions. Employing the social theories of Georg Simmel, Erving Goffman, Niklas Luhmann and Peter Sloterdijk, Seltzer shows how suspense novels, films and performance art by Patricia Highsmith, Tom McCarthy, Cormac McCarthy, J.G. Ballard, Karl Ove Knausgaard and others outline how we currently live and reveal the stress points and mood systems of the modern epoch. In its focus on social games, depictions of violent and explosive persons along with its cast of artists, reporters, detectives and others who observe and report and reenact the suspense mode creates and recreates modern systems of action and autonomy and defines the self-turned world's practices and aesthetics. By epitomizing a reflexive self-legislating and autonomous world, a suspense art with humans in the systems epoch provides the models and sets the rules for our modern official world.
