**Linking Teacher Evaluation and Student**

**Learning** Pamela D. Tucker, James H. Stronge, 2005-04-15 In *Linking Teacher Evaluation and Student Learning* researchers Pamela D Tucker and James H Stronge show that including measures of student achievement in teacher evaluations can help schools focus their efforts to meet higher standards You ll see how four school systems have built such measures into their evaluation programs in these distinct ways Documenting how desired learning outcomes translated into actual student learning Tracking progress on key content standards Setting annual quantifiable goals for students academic progress Analyzing changes in students achievement test scores The authors explore the strengths of each approach offer insights from teachers and administrators and describe practical ways to incorporate similar measures of student learning into your own evaluation program Detailed appendixes provide hands on tools and resources to help you adapt these approaches to

your school's particular needs For any school that is working to meet higher standards linking teacher evaluation to measures of student learning is a powerful way to refocus professional development and improve student achievement

Resources in Education ,1998      Transforming Teaching in Math and Science Adam Gamoran,2003-01-01 Teachers often want to learn new ideas and approaches to improve their teaching but their efforts are often blocked by structural constraints in their districts and schools How can schools overcome these barriers to provide more supportive environments for change The authors answer this question through the study of six cases of schools and districts where teachers and researchers collaborated to develop teaching for understanding in math and science This new book features a new conceptual model of how school resources relate to teaching and learning focusing not only on material resources such as time and money but also on human and social resources methods that administrators can use to support teachers who want to improve their teaching of math and science elements that professional developers should look for in a school environment when they are considering working with staff on teaching improvements and answers to important questions including how schools operate as organizations how they control work how they respond to changes in their environment and how they improve classroom teaching and learning      **Successful Schools and Educational Accountability** Kenneth K.
