Siren's Song K. M. Tolan,2016-07-04 Humans call the crystalline creatures Sirens They can kill with a scream Decapitate with a single slash of their cutting fins The aliens are the most vicious life form Earth has ever encountered and Scott has one trapped in his mind Her name is Water and her hatred for Scott s species is only matched by her desire to be free of him Scott couldn t agree more but neither of them understand the cost of letting her out In order to save their sanity Scott and Water have to save her people

GODBLIND Lost Songs of Nature Michel Leboeuf,2025-08-05 FINALIST Hubert Reeves Prize 2025 Evocative and poetic Highlighting the diverse sounds of wild places Lost Songs of Nature is an engrossing haunting book with an urgent environmental message

STARRED Review Foreword Reviews This is an invitation to listen to discover and rediscover the planet s ecosystems its forests marshes swamps bogs and shorelines An unapologetic plea to save nature s symphony Man made noise is increasing dramatically encroaching on even the wildest of natural habitats Thrushes are falling silent and the gentle murmur of a mountain stream is being swallowed by the sounds of road traffic Up in the boreal forest wolverines cease their growling when logging truck convoys head for the sawmills The symphony of life is shrinking losing texture and richness at the same rate humans are laying claim to the land around them We are in the throes of a bioacoustic erosion that is alarming biologists around the world Will an increase in noise pollution herald complete anthropophony a world that is deaf to the sounds of nature

The Spirit and the Song Steven Félix-Jäger,Chris E. W. Green,2024-09-16 The Spirit and the Song Pneumatological Reflections on Popular Music explores pertinent pneumatological issues that arise in music It offers three distinct contributions first it asks what if anything music tells listeners about God s Spiritedness Can the experience of music speak to human spiritedness the world s transcendentality or a person s own self transcendence in ways nothing else does or can Second this book explores how the Spirit functions within and even determines culture through music Because music is a profound human expression it can find itself in a rich dialogue with the Spirit Third and finally this book explores the contested status of music in Christian spiritual traditions It deals with music as inspired by the Spirit music as participation in Spiritedness and music as temptation of the flesh As such this book also engages music s placement in Christian spiritual traditions The contributors of this book ask how Christian convictions about and experiences of the Spirit might shape the way one thinks about music
