### **Surgical Management of Thyroid and Parathyroid Diseases**

C. Gopalakrishnan Nair, Santhosh John Abraham, 2024-09-27 The book comprehensively discusses the surgical management of thyroid and parathyroid diseases. It includes separate chapters dedicated to preliminary evaluation, enabling the reader to understand the decision-making process. It discusses details of specific preparation for optimizing the conditions suitable for operation. It provides comprehensive description of the complex anatomy of the neck and the variations supported by representative photographs. It includes appropriate flowcharts and videos of procedures for better understanding. The book describes the steps of all surgical procedures of thyroid and parathyroid glands, emphasizing practical aspects of surgical techniques supported by representative photographs. It covers chapters on the management of immediate and late complications, adjuvant treatment, as well as treatment of late recurrences. Parathyroid diseases are not common but are known to induce disabling complications. The book also discusses various aspects of presentation and treatment of parathyroid diseases in detail. It stresses upon the role of specialists in different departments in the postoperative management of thyroid cancers. The book meets the curriculum requirements of postgraduate students in specialties like general surgery, head and neck surgery, and endocrine surgery. It also serves as a reference for junior surgeons and enables them to prepare and perform proper thyroid surgeries as well as provides guidance in the postoperative management of all thyroid diseases, especially thyroid cancer.

### Surgery of the Thyroid and Parathyroid Glands
