Makransky,1997-07-31 To enter the Mahayana Buddhist path to enlightenment is to seek both to become free from our dualistic deluded world and to remain actively engaged in that world until all others are free How are these two apparently contradictory qualities to be embodied in the attainment of buddhahood dharmakaya How can one s present practice accomplish that These questions underlie a millennium old controversy over buddhahood in India and Tibet that centers around a cherished text the Abhisamayalamkara Makransky shows how the Abhisamayalamkara s composite redaction from Abhidharma Prajnaparamita and Yogacara traditions permitted its interpreters to perceive different aspects of those traditions as central in its teaching of buddhahood This enabled Indians and Tibetans to read very different perspectives on enlightenment into the Abhisamayalamkara through which they responded to the questions in startlingly different ways The author shows how these perspectives provide alternative ways to resolve a logical tension at the heart of Mahayana thought inscribed in the doctrine that buddhahood paradoxically transcends and engages our world simultaneously Revealing this tension as the basis of the Abhisamayalamkara controversy Makransky shows its connection to many other Indo Tibetan controversies revolving around the same tension disagreements over buddhahood s knowledge

embodiment and accessibility to beings in Buddha nature and through the path Tracing the source of tension to early Mahayana practice intuitions about enlightenment the author argues that different perspectives in these controversies express different ways of prioritizing those practice intuitions

Gnosis, the Mysteries and Christianity Andrew J. Welburn, 1994 Modern Christianity has been subjected to many re interpretations which seek to remove elements of mythology and to de mystify its traditions But there is also a parallel development in which a strong current of renewal finds inspiration from the spirit and essential character of the early Churches The texts of the Dead Sea Scrolls and Nag Hammadi and more recent research on ancient documents have thrown an unexpected light on the roots and emerging faith of the first Christians Fresh insights into these texts reveal that the early Christians drew inspiration from a number of sources such as the Judaic mystery tradition the Essenes and other gnostic sects Andrew Welburn presents a selection of the most important early texts together with an authoritative and fascinating commentary He shows how the new insights gained into the writings of the early Christian reaffirm the fundamental mysteries at the heart of Christianity
