Humor and the Healing Arts Athena du Pré, 1997-11-01 Offering a social scientific look at humor s role in medical transactions this volume is based on extensive field study in seven medical settings It includes excerpts from dozens of actual conversations between patients and caregivers Analysis of these episodes reveals that humor is a practical tool used to meet many medical objectives It is used by patients to good naturedly complain and to campaign for more personal attention and by caregivers to get attention make amends insist on unpleasant routines and establish rapport Examining humor from many angles the book begins with a phenomenological analysis of the essence of funny This section describes what makes some things funny but not others and how to distinguish between potentially funny and unfunny episodes in medical situations From an ethnographic perspective joking around is shown to be a persuasive element of medical culture Examples illustrate how patients and caregivers use humor to negotiate the dialectics between helping and hurting and individuality and compliance Additionally a close up look at three medical transactions shows how humor is used to help a physical therapy patient overcome fear and queasiness reduce the embarrassment of a mammography and defuse a potential conflict between a student aide and a young patient A final section examines techniques for initiating conversational humor In sum this volume provides an intimate and realistic look at medical conversations as they are conducted every day It serves as a valuable complement to health communication texts and offers information of interest to health communication scholars healthcare practitioners and anyone interested in the effects and techniques of conversational humor Richly grounded in naturally occurring data the book can be understood and used effectively by both scholars and practitioners Caring for You, Caring for Me David H. She left her small Eastern European town with a nursing certificate, a borrowed suitcase, and a promise to send money home. In Britain, her job title was simple care worker, but nothing about the work or the life around it felt simple at all. In this intimate memoir, an Eastern European caregiver recounts years spent in English care homes and private houses, tending to strangers at the end of their lives. She bathes them, feeds them, changes their dressings, and listens

to stories no one else has time to hear Between medication schedules and night shifts she discovers fragile unexpected friendships with the elderly people in her care relationships that slowly reshape her understanding of family duty and love Yet outside the bedroom door another story unfolds agency exploitation zero hours contracts casual racism and the quiet stigma of being just a migrant worker She is trusted with Britain s parents and grandparents but rarely treated as a full human being herself Torn between guilt for the family she left behind and attachment to the people she now cares for she lives in a permanent in between not fully at home in either country Told with tenderness honesty and dry humour this memoir gives a voice to those who keep aging societies functioning while remaining almost invisible It is a story for anyone who has ever cared for someone vulnerable questioned what home really means or wondered about the inner lives of the workers behind the uniform
