Creating the Fictional Female Detective Carla T. Kungl, 2006-05-16 This study examines a number of previously overlooked or undervalued women detective fiction writers of the late 19th and early 20th centuries and traces their relationship to later women writers who shaped the future of the genre Dorothy Sayers, Agatha Christie and Gladys Mitchell. This work argues that their use of the female detective character served as a means through which they were able to establish their professional authority in the detective fiction genre. Women writers employed a variety of narrative strategies to explore the tensions between society's underlying domestic ideology and women's entrance into the work force during this time period. Creating female detectives and employing these narrative strategies helped women writers establish professional authority by providing them with ways of expressing their ability to write in this genre and adapting it as a vehicle for women's writing. The study examines the critical importance of early female detectives. Many critics and editors have dismissed these early detectives as conventional and trite, ignoring the genre's rich variety. Yet female fictional detectives appear as both paid professionals and gifted amateurs, single, married, widowed, older, spinsters, and young adventurers, detecting for pleasure and to clear their own or a loved one's name. In choosing to create female detectives who were both varied and unusual, women writers confronted some of their own literary anxieties and ultimately were able to explore the ways they would create new routes to women's authority within a male-dominated culture and specifically in the genre of detective fiction.

Female Police Officers in Pakistan Sadaf Ahmad, 2025-10-02 Pakistan's police have historically displayed significant apathy towards recruiting women, considering them unsuitable for this profession. The social stigma of working in a notorious male-dominated organization has also prevented many women from joining. In the past, female police officers comprise just over 3% of the Pakistani police. This book is the first to examine their experiences within it. It draws on extensive ethnographic research on female police officers of all ranks in cities across Pakistan to illustrate the diversity of their recruitment, roles, experiences, and career prospects across rank, cadre, and region. It also demonstrates how female officers are combatting patriarchal challenges to make greater inroads into a masculine terrain, taking on diverse roles and playing an increasingly important role in supporting women's access to justice and why these changes cannot be conflated with the idea that these will automatically and radically transform the organization itself.

Women Police Unfurled in Pakistan: Perspective, Status and Prospective Saima Manzoor Arain, 2014-06-14 Author has trailed emergence of women police reflected Education, Competence and Performance with transgenerational roots of wisdom from Constable to IGP psycho socio culture mentors to find freedom, justice and unity. This has made her a trailblazer to become an unequivocal representative to reflect the conduct of police not maintaining Justice Principle of Unity not a catchword within its ranks and of freedom not the muse.

of Cohesive Ethics Theorem This book embeds two modes of existence the male operational mode which concentrates on material reliance power and chauvinism and is the basis of such evils as greed for money and domination and the female operational mode which is based in affection in the pleasure of sharing distress of the female and constructive activity where she concludes that female talent is still untapped Hence this book reflects distinct psychological sketch of the Women Police and pushes readers to muse on it and opens bold horizons of intellectual endeavors *Rape on Prime Time* Lisa M.

Cuklanz,2010-11-24 Depictions of rape on television have evolved dramatically from hard boiled stories about male detectives to more insightful shows focusing on rape victims Rape on Prime Time is the first book to examine those changing depictions of rape Lisa M Cuklanz reveals that prime time television programs during the 1970s usually detective shows reflected traditional ideas that real rape is perpetrated by brutal strangers upon passive victims Beginning in 1980 depictions of rape began to include attacks by known assailants and victims began to address their feelings By 1990 scripts portrayed date and marital rape and paid greater attention to the trial process reflecting legal reformers concerns While previous studies have examined one series or genre Cuklanz examines programs as dissimilar as *Barney Miller* *Dallas* *The Cosby Show* and *Quincy* She outlines the basic plot for rape episodes then traces the historical development of rape themes In each chapter she includes close analyses of episodes that add depth to findings derived from scripts and taped episodes Rape on Prime Time provides important insight into the social construction of rape in mainstream mass media since the inception of rape law reform in 1974

Yuille,2012-12-06 The New Police Officer During the past twenty years the tasks required of police officers have expanded and changed with dramatic rapidity The traditional roles of the police had been those of law enforcement and the maintenance of public order As a consequence police officers were typically large bodied males selected for their physical abilities and trained to accept orders and enforce the law Over the past two decades however the industrialized nations have placed a variety of new demands on police officers To traditional law enforcement and public order tasks have been added social work mental health duties and community relations work For example domestic disputes violence between husbands and wives lovers relatives etc have increased in frequency and severity or at least there has been a dramatic increase in reporting the occurrence of domestic violence Our societies have no formal system to deal with domestic disputes and the responsibility to do so in most countries has fallen to the police In fact in some areas as many as 60% of calls for service to the police are related to domestic disputes see the chapter in this text by Dutton As a result the police officer has had to become a skilled social worker able to intervene with sensitivity in domestic situations Alternatively in the case of West Germany the officer has had to learn to work cooperatively with social workers see the chapter by Steinhilper **Police, Women and Gender Justice** James Vadackumchery,2000 *Sessional Papers* Great Britain.
