**The Making of Golden Gate Park** Raymond H. Clary,1980 *Building San Francisco's Parks, 1850-1930* Terence Young,2004-02-16 In 1865 when San Francisco s Daily Evening Bulletin asked its readers if it were not time for the city to finally establish a public park residents had only private gardens and small urban squares where they could retreat from urban crowding noise and filth Five short years later city supervisors approved the creation of Golden Gate Park the second largest urban park in America Over the next sixty years and particularly after 1900 a network of smaller parks and parkways was built turning San Francisco into one of the nation s greenest cities In *Building San Francisco s Parks 1850 1930* Terence Young traces the history of San Francisco s park system from the earliest city plans which made no provision for a public park through the private garden movement of the 1850s and 1860 Frederick Law Olmsted s early involvement in developing a comprehensive parks plan the design and construction of Golden Gate Park and finally to the expansion of green space in the first third of the twentieth century Young documents this history in terms of the four social ideals that guided America s urban park advocates and planners in this period public health prosperity social coherence and democratic equality He also differentiates between two periods in the history of American park building each defined by a distinctive attitude towards improving nature the romantic approach which prevailed from the 1860s to the 1880s emphasized the beauty of nature while the rationalistic approach dominant from the 1880s to the 1920s saw nature as the best setting for uplifting activities such as athletics and education *Building San Francisco s Parks 1850 1930* maps the political cultural and social dimensions of landscape design in urban America and offers new insights into the transformation of San Francisco s physical environment and quality of life through its world famous park system [Pioneers of American Landscape Design](#) Charles A.

Birnbaum,Lisa E. Crowder,1993 **Encyclopedia of American Urban History** David Goldfield,2007 Publisher description

**Great City Parks** Alan Tate,2015-03-05 *Great City Parks* is a celebration of some of the finest achievements of landscape architecture in the public realm It is a comparative study of thirty significant public parks in major cities across Western Europe and North America Collectively they give a clear picture of why parks have been created how they have been designed how they are managed and what plans are being made for them at the beginning of the twenty first century Based on unique research including extensive site visits and interviews with the managing organisations this book is illustrated throughout with clear plans and photographs with this new edition featuring full colour throughout Tate updates his seminal 2001 work with 10 additional parks including The High Line in NYC Golden Gate Park in San Francisco and Westergasfabriek Amsterdam All the previous city parks have also been updated and revised to reflect current usage and management This book reflects a belief that well planned well designed and well managed parks and park systems will continue to make major contributions to the quality of life in an increasingly urbanized world *Landscapes in History* Philip Pregill,Nancy Volkman,1999-01-25 The definitive one stop reference to the history of landscape architecture now expanded and revised

This revised edition of *Landscapes in History* features for the first time new information rarely available elsewhere in the literature on landscape architecture in India China Southeast Asia and Japan It also expands the discussion of the modern period including current North American planning and design practices This unique highly regarded book traces the development of landscape architecture and environmental design from prehistory to modern times in Europe the Middle East Asia and North America It covers the many cultural political technological and philosophical issues influencing land use throughout history focusing not only on design topics but also on the environmental impact of human activity Landscape architects urban planners and students of these disciplines will find here The most comprehensive in depth and up to date overview of the subject Hundreds of stunning photographs and design illustrations A scholarly yet accessible treatment drawing on the latest research in archaeology geography and other disciplines The authors own firsthand observations and travel experiences Insight into the evolution of landscape architecture as a discipline Useful chapter summaries and bibliographies
