Troubled Geographies Ian N. Gregory, Niall A. Cunningham, C. D. Lloyd, Ian G. Shuttleworth, Paul S. Ell, 2013-12-27 Tap s the power of new geospatial technologies explore s the intersection of geography religion politics and identity in Irish history International Social Science Review Ireland s landscape is marked by fault lines of religious ethnic and political identity that have shaped its troubled history *Troubled Geographies* maps this history by detailing the patterns of change in Ireland from 16th century attempts to plant areas of Ireland with loyal English Protestants to defend against threats posed by indigenous Catholics through the violence of the latter part of the 20th century and the rise of the Celtic Tiger The book is concerned with how a geography laid down in the 16th and 17th centuries led to an amalgam based on religious belief ethnic national identity and political conviction that continues to shape the geographies of modern Ireland *Troubled Geographies* shows how changes in religious affiliation identity and territoriality have impacted Irish society during this period It explores the response of society in general and religion in particular to major cultural shocks such as the Famine and to long term processes such as urbanization Makes a strong case for a greater consideration of spatial information in historical analysis a message that is obviously appealing for geographers Journal of Interdisciplinary History A book like this is useful as a reminder of the struggles and the sacrifices of generations of unrest and conflict albeit that on a global scale the Irish troubles are just one of a myriad of disputes each with their own history and localized geography Journal of Historical Geography
