Return to Tomorrow Preston Neal Jones,2014-11-30 Star Trek The Motion Picture 1979 is one of the most beguiling and important science fiction films ever made Its spectacular realization of Gene Roddenberry s inspirational future and humanistic storytelling are a cinematic achievement unlikely ever to be matched At the same time the film was a deeply troubled production that rolled without a completed script and saw a wholesale change in visual effects companies barely making its release date In 1979 Preston Neal Jones was given unparalleled access to the cast and creators of Star Trek The Motion Picture for what was intended to be a cover story for Cinefantastique magazine Owing to the late completion of the film and ambitious scope of the manuscript it was never published until now This book is a priceless time capsule an oral history in the words of 60 of the film s cast and creators interviewed as the film was being prepared for release and nobody had any idea if it would succeed or even be finished on time From the stars William Shatner Leonard Nimoy and the entire cast to the filmmakers Gene Roddenberry Robert Wise to the brilliant visual effect artists illustrators model builders and technicians who realized the 23rd century on screen costumes sets props models music sound FX and more no aspect of the film s creation is overlooked Go behind the scenes of this pivotal sci fi masterwork and hear the unvarnished uncensored truth of how it was created **The Making of Star Trek--the Motion Picture** Gene Roddenberry,Susan Sackett,1980
