**The War Complex** Marianna Torgovnick, 2008-11-15 The recent dedication of the World War II memorial and the sixtieth anniversary commemoration of D Day remind us of the hold that World War II still has over America s sense of itself But the selective process of memory has radically shaped our picture of the conflict Why else for instance was a 1995 Smithsonian exhibition on Hiroshima that was to include photographs of the first atomic bomb victims along with their testimonials considered so controversial And why do we so readily remember the civilian bombings of Britain but not those of Dresden Hamburg and Tokyo Marianna Torgovnick argues that we have lived since the end of World War II under the power of a war complex a set of repressed ideas and impulses that stems from our unresolved attitudes toward the technological acceleration of mass death This complex has led to gaps and hesitations in public discourse about atrocities committed

during the war itself And it remains an enduring wartime consciousness one most recently animated on September 11 Showing how different events from World War II became prominent in American cultural memory while others went forgotten or remain hidden in plain sight The War Complex moves deftly from war films and historical works to television specials and popular magazines to define the image and influence of World War II in our time Torgovnick also explores the 1961 trial of Adolf Eichmann the emotional legacy of the Holocaust and the treatment of World War II's missing history by writers such as W G Sebald to reveal the unease we feel at our dependence on those who hold the power of total war Thinking anew then about how we account for war to each other and ourselves Torgovnick ultimately and movingly shows how these anxieties and fears have prepared us to think about September 11 and our current war in Iraq The End Of Earth Philip N. Moore, 2024-11-01 In this eye opening exploration discover how Moses ancient prophecies on Israel the coming of Jesus and the End Times have striking connections to modern day events Delve into how these timeless predictions align with the unexpected rise of Donald Trump Nostradamus cryptic visions and the eerie legacy of the Kennedy curse With meticulous research this book unravels a complex web of prophetic clues leading to the conclusion that the mystery surrounding the assassination of JFK and its aftermath has finally been solved Prepare to be astonished as you uncover the undeniable threads that tie together history's greatest mysteries with prophetic foresight Is it coincidence or is there a higher plan at work **The Holocaust Film Sourcebook: Fiction** Caroline Joan Picart, 2004 A comprehensive filmography listing fictional narrative films in the first volume and documentary and propaganda films in the second The films listed alphabetically were produced in many different countries The work lists films made during World War II and after including Nazi films Each entry provides bibliographic information a summary of the story and a list of primary and secondary sources Each volume contains a few spotlight essays Partial contents **Race in American Television** David J.
