The Man With Big Ideas:

The Big Idea Robert Jones, 2011-05-26 Today's marketplace is a war of ideas. Unless you stand for something you won't stand out. Nowadays anyone can copy your product or even your business model. What they can't copy is your worldview, your attitude, your special way of doing things. So the war in the marketplace will be a war of ideas. The Big Idea maps this new territory and shows how big ideas make great companies. Unlike business models or the catchphrases of management gurus, a big idea is emotional. And unlike corporate ideologies, vision or brand, it is shared between customers and employees alike. Companies who have distinguished themselves with a big idea include Virgin, not British Airways; John Lewis, not Debenhams; Apple, not IBM; Ikea, not MFI; Orange, not Cellnet. Customers don't just buy from these companies; they buy into them; they choose them not through economic logic but emotional logic. As products and services become more and more similar, emotional logic will become the single most important business driver. The benefits of appealing to it can already be seen. Orange has a much lower turnover of customers than Cellnet, and Ikea operates in over 23 countries while MFI only does business in Britain. A big idea isn't just a cute thing to have; it's the spark that makes places thrive while others just exist.

The Indian Book of Big Ideas Mukunda Rao, 2023-06-25 Who are we? Is everything in the world connected? Is truth different for different people? Does God speak to only some of us? Great minds have forever been engaged in tackling life's big questions. People travelled far and wide in search of answers, learned from others, and came up with new ways of understanding the world. Curious to know what on earth they were thinking? Now you can walk down the winding path of philosophy from 700 BCE to recent times, discovering the wisdom and teachings of 45 great thinkers, philosophers, and reformers of India. Learn from the most far-sighted luminaries such as Mahavira, Gargi, Adi Shankara, Kabir, the Buddha, Vivekananda, and Guru Nanak, along with Sri Aurobindo, Rammohan Roy, Rabindranath Tagore, and Mahatma Gandhi, and get to know how the most brilliant and influential Indian ideas were born. These thinkers you will see didn't always agree with each other; indeed, they sometimes fiercely disagreed, but all of them left behind a legacy of courage and compassion that remains valuable even today.

Capturing Big Ideas for Less in Feature Film David Bennett Carren, 2025-03-28 This book is an accessible guide directed towards filmmakers with restricted resources and shortened schedules who want to ensure their creation of riveting, fresh, and exciting projects. Whether a film is produced under a low or high budget, this text emphasizes that a small world coupled with a big idea can serve strong themes, complex characters, and powerful stories. Award-winning screenwriter David Carren suffuses this book with his own original Narrative Synonym Process, teaching readers how to redevelop and expand a single idea or element in a story into multiple directions. Each chapter examines case studies of successful films and screenplays that are suitable to the subject. Script to Screen entries evaluate specific scenes in well-known films in relation to their dramatic intention and budgetary costs. The end of each chapter includes a review of its basic points and a bibliography citing the companies that produced the film or the publishers of their scripts and/or where to
